Method of Contract Payments: As outlined on the reverse side of this form, for contracts over one million dollars, SHA's method of contract payments is through an electronic virtual credit card issued by SHA's e-payables vendor, Bank of America. Unless SHA grants a waiver, Vendors will receive an enrollment form from SHA following issuance of a contract.

SIGN BELOW:

Signature of Authorized Representative of Vendor:	Date:

By signing immediately above, the Vendor hereby represents the following:

a) The Vendor certifies that to the best of its knowledge and belief, neither it, nor any person/principal or firm which has an interest in the Vendor's firm, is ineligible to participate in a SHA contract, purchase order, direct pay or other transaction, pursuant to the Certification of Eligibility provision specified in the Vendor Fact Sheet Instructions, or;

b) The Vendor will comply with SHA's General Terms and Conditions applicable to Purchase Orders, if the Vendor will be supplying goods and/or services through an SHA Purchase Order.

To obtain a copy of the General Terms and Conditions, call (206) 615-3379 or visit our Web site at https://www.seattlehousing.org/sites/default/files/Purchase_Orders_Terms_Conditions.pdf

Vendor Fact Sheet Instructions

Thank you for your interest in doing business with the Seattle Housing Authority (SHA). We look forward to doing business with you. If you have any questions about completion of the Vendor Fact Sheet, please call us at (206) 615-3379.

In order for SHA to make payments to you or to procure goods or services from you, we need the information requested on the Vendor Fact Sheet, which also serves as a substitute IRS W-9 Form. The information about you will be entered into our computerized payment system and will allow us to make required reports to the Federal government about our business and payment transactions.

Substitute IRS Form W-9 Certification: In completing the Vendor Fact Sheet, you must sign the "Substitute IRS Form W-9 Certification" or backup withholding will apply. If you are subject to backup withholding and you are merely providing your correct taxpayer identification number to SHA, you must cross out the portion of the certification after the word "and" in line two, through the end of line five, before signing the form. Detailed instructions about IRS Form W-9 are included on the form, which may be obtained by calling our office at (206) 615-3379 or visiting the IRS web site at www.irs.gov.

Certification of Eligibility: In order to do business with SHA, the Vendor must be eligible to:

1) Be awarded contracts by any agency of the U.S. Government, HUD, or the State in which this Contract work is to be performed; or,
2) Participate in HUD programs pursuant to 24 CFR Part 24.

The websites to verify eligibility of the firm and its principals are: https://www.sam.gov/portal/SAM and http://portal.hud.gov/hudportal/HUD?src=/topics/limited_denials_of_participation. By signing the Vendor Fact Sheet, the Vendor understands that the certification of eligibility is a material representation of fact upon which reliance was placed when SHA agreed to enter into the transaction with the Vendor. SHA may require the Vendor to submit such certification on an annual basis depending on the terms of its contract or the frequency of its business transactions with SHA. If the Vendor subcontracts any portion of the work, the Vendor will be required to submit a similar certification of eligibility to SHA for any Vendor subcontracts. Any written contract executed between SHA and the Vendor shall include these provisions, which may also be referred to as Suspension/Debarment provisions.

Contract Payments: Unless SHA grants a waiver, its method of contract payment for contracts of one million or more is through its Bank of America epayables program. Payments will be made electronically through a virtual Visa credit card. Benefits for using this method include reduced labor costs associated with the processing of checks and enhancing cash flow by eliminating float time associated with the mailing of checks. To learn more about the program, please click here or copy and paste the following URL into your browser: www.bankofamerica.com/epayablesvendors. For new vendors, SHA will automatically send an enrollment form upon contract award. If you have questions about the program, please contact Brenda Mix, SHA's Accounts Payable Manager, at 206-615-3421 or bmix@seattlehousing.org.

Small Businesses: The Vendor Fact Sheet also requests information about whether your business is owned and controlled by women or minorities, and/or is a small business. The following are definitions of these terms for your use. This information provides valuable information to SHA in its efforts to ensure its contracting program meets its diversity objectives and requirements.

- **WMBE:** Minority and women-owned business enterprises must either be self-identified or certified by, the Washington State Office of Women's and Minority Business Enterprises (OMWBE) to be at least fifty-one percent owned by women and/or minority group members.
- **Small Business:** A small business means a business concern, including its affiliates, that is independently owned and operated, not an affiliate or subsidiary of a business dominant in its field of operation, and qualified as a small business under the criteria and size standards in 13 CFR 121. Furthermore, a business is considered small according to the Small Business Administration's established guidelines provided to such businesses.
- **HUD Section 3 Business:** A business that is owned 51% or more by a Section 3 qualified person, or where 30% or more of the permanent, full-time employees of the business are Section 3 qualified persons, or where the business can provide evidence of a commitment to subcontract in excess of 25% of the amount of all subcontracts to other Section 3 certified businesses. A Section 3 qualified person must live in the metropolitan statistical areas identified on SHA's Section 3 form and whose income level meets or falls below the stated income limits.

Seattle Housing Authority

Section 3 Business Certification

The work to be performed under this contract is subject to the requirements of Section 3 of the Housing and Urban Development Act of 1968, as amended, 12 U.S.C. 1701u (Section 3). The purpose of Section 3 is to ensure that employment and other economic opportunities generated by HUD assistance or HUD-assisted projects covered by Section 3, shall, to the greatest extent feasible, be directed low-and very low-income persons, particularly persons who are recipients of HUD assistance for housing.

Section 3 Business Criteria: Your business is eligible for Section 3 Certification if it meets any one of the following criteria. If your business meets one or more of these criteria, please circle the applicable criteria.

1. Fifty-one percent or more of your business is owned and managed by a Section 3 qualified person or persons. (See qualification guidelines below) A completed and signed Individual Certification form for each Section 3 qualified person or persons is required to be submitted.

2. Thirty percent or more of your permanent, full time employees are Section 3 qualified persons. (When seeking certification under this criteria, please submit a listing of all current, permanent, full-time employees, as well as a completed and signed Individual Certification form for each Section 3 qualified employee.)

3. You can provide evidence of a commitment to subcontract in excess of 25 percent of the amount of all subcontracts to Section 3 certified businesses. (When seeking certification under these criteria, please consult with the Section 3 Coordinator regarding the documentation to be submitted.)

Section 3 Person Criteria: A Section 3 qualified person must:

1) Be a City of Seattle Housing Authority public housing resident; or
2) Live in the metropolitan statistical area (MSA) covering King, Snohomish, and Pierce counties, and,
3) Earn no more than the following amounts for the respective MSA area:

Region/Area	1 Person	2 Persons	3 Persons	4 Persons	5 Persons	6 Persons	7 Persons	8 Persons
King and Snohomish Counties	$ 56,200	$64,200	$ 72,250	$ 80,250	$ 86,700	$ 93,100	$ 99,550	$ 105,950
Pierce County	$ 41,800	$ 47,800	$ 53,750	$ 59,700	$ 64,500	$ 69,300	$74,050	$ 78,850

Section 3 Statement: Please check the appropriate box below.

☐ My business is eligible to be certified as a Section 3 business in accordance with the criteria circled above under Section 3 Business Criteria.

☐ My business is not a Section 3 business.

Signature:	Date Signed:
Name:	Title:
Company Name:	

LastRevised 04-02-18

Address:
Telephone Number:

Note: If you certify above that your business is a Section 3 business, SHA will request documentation and additional information as may be reasonably required to certify whether your business qualifies as a Section 3 business.

Section 3 Resident Employment Plan

Section 3 of the Housing and Urban Development Act of 1968 (hereinafter "Section 3") requires SHA, to the greatest extent feasible, to provide employment opportunities to "Section 3 residents." Section 3 residents include residents of SHA communities and other low income residents of the metropolitan statistical area (hereinafter "MSA") covering King, Snohomish, and Pierce counties. SHA residents, preferably residents of the SHA community in which the work is to be done, are favored over other low-income residents of the MSA.

For construction contracts only:

- Each bidder is required to submit with their bid package a plan which will result in the hiring of Section 3 residents to perform the work contemplated by the bid. SHA has established a goal that 100% of all new hires be Section 3 Residents to the greatest extent feasible.
- At a minimum, the Contractor and its subcontractors shall advertise new positions created in order to perform the work called for herein and will post notices to the Contractor's commitments under Section 3 in conspicuous places at the work site. In addition, the Contractor must notify each labor organization with whom it or its subcontractors have a collective bargaining agreement or other understanding of these Section 3 commitments.

In order to fulfill its Section 3 obligations, the Contractor may work with service providers on site at various SHA communities including, but not limited to, Neighborhood House and the Employment Opportunities Center. The plan should specify the number of positions the Contractor expects will be created and what minimum qualifications and skills will be required in order to perform the positions. The plan, if applicable, should also address the Contractor's strategy for recruiting SHA residents for the available positions, which should include consultation with SHA's Section 3 Coordinator.

1. How many new positions do you expect this contract will require you to create?

_____

2. Describe each position and provide the name and provide the location of the person(s) taking applications for each such position.

_____

_____

_____

3. What minimum skills will be required for each position?

_____

_____

_____

4. Please describe any training opportunities which the contract may create and any agreements concerning training you have.

5. How will you advertise these positions to SHA residents?

If you have any questions about this form, please call Samuel Pierce, SHA's Section 3 Coordinator, at (206) 913-9227.

SEATTLE HOUSING AUTHORITY

SUSPENSION AND DEBARMENT COMPLIANCE CERTIFICATE FOR CONTRACTOR

By signing below, the Contractor certifies that to the best of its knowledge and belief neither its firm nor any of its principals as named below are presently debarred, suspended, or have been declared ineligible or are excluded from participation in this transaction by any federal, state or local government.

Contractor's Firm Name: _____

Address: _____
City, State, Zip: _____

	PRINCIPAL(S) Name(s)	Title(s)
1		
2		
3		
4		
5		

Contractor's Signature	Printed Name	Title	Date

NOTE: This requirement applies to the Contractor's firm as well as its principals. Principal is defined in the regulation (2 CFR 180.995) as follows:

1) An officer, director, owner, partner, principal investigator, or other person within a participant with management or supervisory responsibilities related to a covered transaction; or
2) A contractor or other person, whether or not employed by the participant or paid with Federal funds, who-
   a) Is in a position to handle Federal funds;
   b) Is in a position to influence or control the use of those funds; or,
   c) Occupies a technical or professional position capable of substantially influencing the development or outcome of an activity require to perform the covered transaction.

The federal websites to verify eligibility include: https://www.sam.gov/portal/public/SAM/ and http://portal.hud.gov/hudportal/HUD?src=/topics/limited_denials_of_participation.

SEATTLE HOUSING AUTHORITY

SUSPENSION AND DEBARMENT COMPLIANCE CERTIFICATE FOR SUB-CONTRACTORS

The Prime Contractor may use this form if the Prime can verify that their Sub-Contractors named below, nor any of their principals are debarred, suspended or ineligible from involvement by Federal, State or Local Government. If the Prime is unable to verify this information, the Prime must send the previous SUSPENSION AND DEBARMENT COMPLIANCE CERTIFICATE FOR CONTRACTOR form to each sub- contractor to be completed and returned.

Prime Contractor's Name: _____ certifies that neither any of the sub- contracting firms named below, nor any of its principals are debarred, suspended or ineligible from involvement by Federal, State or Local Government. I understand that the Seattle Housing Authority (SHA) relies on this certification and I understand that I am obligated to submit the following to SHA:

- A certification for any new sub- contractor hired after submission of this certification.
- A renewal certification for every sub- contractor on the anniversary of the Contract execution date if the Contract Time extends beyond one year.

(**Note:** In lieu of this certification, the Prime Contractor may elect to submit a separate certification signed by each sub- contracting firm to SHA as evidence of sub- contractor eligibility. It is the Prime Contractor's responsibility to initiate, obtain, and provide all such individual sub- contractor certifications to SHA.)

Prime Contractor's Signature	Printed Name	Title	Date

Sub- Contractor Firm Listing: (If sub- contractors are not involved in the project, please enter NONE.)

If additional pages are necessary, copy this form to ensure signed statement precedes any listing of sub- contractors.
Please contact Louise Lauff at 206-615-3376 or by e-mail at louise.lauff@seattlehousing.org if you have any questions regarding compliance with this requirement.

For-Profit Subgrantee and Contractor
Certifications and Assurances

The Department of Housing and Urban Development (HUD) requires that all for-profit Subgrantees and Contractors on HOPE VI projects sign this "Certifications and Assurances" form certifying that they will comply with the specific federal requirements described below. The parties who must sign a "Certifications and Assurances" form are defined below:

- **Subgrantees:** These are for-profit organizations to which the Housing Authority (Housing Authority or Grantee) has awarded a grant from the HOPE VI grant that the Housing Authority received from HUD. The subgrantee is accountable to the Housing Authority for the use of the funds provided, but the Housing Authority is ultimately accountable to HUD.
- **Contractors:** This includes any for-profit contractor, consultant, service provider, or supplier that the Housing Authority contracts with for goods or services on any HOPE VI project.

Certification and Assurance: The subgrantee or contractor executing this certification hereby assures and certifies that it will comply with all of the applicable requirements of the following, as the same may be amended from time to time, including adding appropriate provisions to all contracts between Grantee and for-profit Subgrantees or Contractors:

(1) Administrative, contractual, or legal remedies in instances where contractors violate or breach contract terms, and provide for such sanctions and penalties as may be appropriate. (Contracts more than the simplified acquisition threshold)

(2) Termination for cause and for convenience by the grantee or subgrantee including the manner by which it will be effected and the basis for settlement. (All contracts in excess of $10,000)

(3) Compliance with Executive Order 11246 of September 24, 1965, entitled "Equal Employment Opportunity," as amended by Executive Order 11375 of October 13, 1967, and as supplemented in Department of Labor regulations (41 CFR chapter 60). (All construction contracts awarded in excess of $10,000 by grantees and their contractors or subgrantees)

(4) Compliance with the Copeland "Anti-Kickback" Act (18 U.S.C. 874) as supplemented in Department of Labor regulations (29 CFR part 3). (All contracts and subgrants for construction or repair)

(5) Compliance with the Davis-Bacon Act (40 U.S.C. 276a to 276a-7) as supplemented by Department of Labor regulations (29 CFR part 5). (Construction contracts in excess of $2000 awarded by grantees and subgrantees when required by Federal grant program legislation)

(6) Compliance with Sections 103 and 107 of the Contract Work Hours and Safety Standards Act (40 U.S.C. 327-330) as supplemented by Department of Labor regulations (29 CFR part 5). (Construction contracts awarded by grantees and subgrantees in excess of $2000, and in excess of $2500 for other contracts which involve the employment of mechanics or laborers)

(7) Notice of awarding agency requirements and regulations pertaining to reporting.

(8) Notice of awarding agency requirements and regulations pertaining to patent rights with respect to any discovery or invention which arises or is developed in the course of or under such contract.

(9) Awarding agency requirements and regulations pertaining to copyrights and rights in data.

(10) Access by the grantee, the subgrantee, the Federal grantor agency, the Comptroller General of the United States, or any of their duly authorized representatives to any books, documents, papers, and records of the contractor which are directly pertinent to that specific contract for the purpose of making audit, examination, excerpts, and transcriptions.

(11) Retention of all required records for three years after grantees or subgrantees make final payments and all other pending matters are closed.

(12) Compliance with all applicable standards, orders, or requirements issued under section 306 of the Clean Air Act (42 U.S.C. 1857(h)), section 508 of the Clean Water Act (33 U.S.C. 1368), Executive Order 11738, and Environmental Protection Agency regulations (40 CFR part 15). (Contracts, subcontracts, and subgrants of amounts in excess of $100,000).

(13) Mandatory standards and policies relating to energy efficiency which are contained in the state energy conservation plan issued in compliance with the Energy Policy and Conservation Act (Pub. L. 94-163, 89 Stat. 871).

The information contained in this certification is true and accurate, to the best of my knowledge.

Name of Subgrantee or Contractor	Name and Contract Number:	
Signature of Authorized Certifying Official:	Title:	Date:

WARNING: Section 1001 of the Title 18 of the United States Code (Criminal Code and Criminal Procedure, 72 Stat.967) applies to this certification. 18 U.S.C. 1001, among other things, provides that whoever knowingly and willfully makes or uses a document or writing knowing the same to contain any false, fictitious or fraudulent statement or entry, in any matter within jurisdiction of any department or agency of the United States, shall be fined no more than $10,000 or imprisoned for not more than five years, or both.

Attachment A, Version 2

($35,000 to $150,000)

Invitation to Bid (by Fax)

The work described in the Invitation to Bid (by Fax) is subject to the following terms and conditions:

Bidder Responsibility: The bidder must meet the mandatory bidder responsibility criteria described below and as specified in RCW 39.04 or 2 CFR 200 in order to be considered a responsible contractor and be eligible for award consideration:

1. At the time of bid submittal, have a current certificate of registration in compliance with chapter 18.27 RCW, which must have been in effect at the time of the bid submittal;
2. Have a current Washington Unified Business Identifier (UBI) number;
3. If applicable:
   - Have Industrial Insurance (workers' compensation) coverage for the bidder's employees working in Washington, as required in Title 51 RCW;
   - Have a Washington Employment Security Department number, as required in Title 50 RCW;
   - Have a Washington Department of Revenue state excise tax registration number, as required in Title 82 RCW;
   - Electrical Contractor License, if required by Chapter 19.28 RCW
   - Elevator Contractor License, if required by Chapter 70.87 RCW
4. Not be disqualified from bidding on any public works contract under RCW 39.06.010 or RCW 39.12.065(3).
5. Has not more than one violation of the off-site, prefabricated, non-standard, project specific items reporting requirements of RCW 39.04.370. (Applicable until December 31, 2013)
6. Has not been debarred, suspended, or otherwise ineligible to contract with SHA and is not included on the Excluded Parties List System (EPLS) on GSA's SAM (System for Award Management) https://www.sam.gov/portal/public/SAM/ or the Department of Housing and Urban Development's "Limited Denial of Participation" list. This requirement also applies to the Bidder's principals.

Prevailing Wages: The Contractor must pay all workers at least the prevailing wage rate for the type of work performed in accordance with the applicable prevailing wage rate schedule referenced on the Purchase Order or Request for Bid (by Fax) form and included in these solicitation documents. The type of wage schedule attached i.e., HUD Determined, Davis-Bacon, or the State Prevailing Wage schedule determines the appropriate labor standards that apply to the work as outlined below and contained in the General Conditions for Construction:

1) Part 11.13 for projects subject to the HUD-Determined wage rate schedule.
2) Part 11.12 for projects subject to Davis-Bacon wage schedule.
3) Part 5 for projects subject to the State prevailing wage schedule.

As part of its compliance with the prevailing wage requirements, the Contractor and, if applicable, subcontractor(s) shall comply with the requirement to submit a Statement of Intent to Pay Prevailing Wages and Affidavit of Wages Paid forms approved by the State of Washington's Department of Labor and Industries. The Owner will notify the Contractor of any special filing instructions that may apply for these forms depending on the funding source(s) of the project.

Bid Bond: SHA does not require a bid guarantee for small works roster construction projects estimated to cost $150,000 or less.

Insurance: Within seven calendar days of award, the Contractor shall submit to SHA, and maintain throughout the contract, at no expense to SHA, the following insurance coverage at the limits noted (refer to Part 2 of SHA's General Conditions for more details):

1. Commercial General Liability Insurance. $1,000,000 each occurrence, and $2,000,000 aggregate
2. Additional Insured Endorsement Ongoing Operations: The Owner must be included as an Additional Insured on a primary and non-contributory basis on all Commercial General Liability policies of the Contractor. A policy endorsement form CG2010 or equivalent must be provided to Owner as evidence of additional insured coverage.
3. Additional Insured Endorsement Completed Operations: The Contractor's CGL insurance shall include the Owner as an additional insured for Contractors Completed Operations by providing additional insured status on the CG2037 endorsement, or by an equivalent policy or endorsement provision. The Contractors Completed Operations additional insured status for the Owner shall remain in effect for not less than three (3) years following the Final Acceptance of the Work by the Owner.
4. Employers Liability policy or Washington Stop Gap Liability insurance endorsement: $1,000,000 each accident.
5. Workers Compensation coverage.
6. Commercial Automobile Liability Insurance. $1,000,000 combined single limit coverage
7. Pollution Liability Insurance: $1,000,000 combined single limit coverage, if the work involves handling or disposal of asbestos, lead-based paint, contaminated soil, or other hazardous materials.
8. Professional Liability Insurance: $1,000,000 combined single limit, each claim.

Performance & Payment Bond Requirements: Within seven calendar days of award, the Contractor shall submit to SHA, in accordance with Section 2.05 of the General Conditions, a Performance and Payment bond. Failure to furnish a Performance and Payment bond within the time specified may render the Contractor ineligible for the contract. The SHA may then either award the contract to the next lowest responsible bidder or solicit new bids.

Retainage Requirements: SHA requires retainage to be withheld for small works roster construction projects costing $35,000 or more.

Tax Exempt Status of SHA: For this project, SHA is subject to sales tax for materials, labor and services rendered. The Contractor must pay sales tax on labor and materials purchased for this job.

Protests: Any protest of award shall be resolved in accordance with SHA's Procurement Policies, which may be reviewed at the following web site address:
http://seattlehousing.org/business/guidelines/pdf/Procurement_Policies.pdf

General Conditions: SHA's General Conditions are hereby incorporated by reference and made a part of this Request for Bid (by Fax) and any subsequent contract or purchase order executed for this work as if fully included herein. If the event of any discrepancy between the terms of this Attachment A and the General Conditions, the terms of the General Conditions shall apply, except that the types and amounts of insurance specified above, and the waiver of the Contract Bond and withholding of retainage specified above, shall take precedence over the General Conditions. The General Conditions may be viewed by accessing the following Internet Web site address:
http://seattlehousing.org/business/guidelines/pdf/Construction_Contract_General_Conditions.pdf, or upon request, a copy of the General Conditions may be obtained by calling SHA at (206) 615-3379.

Performance Evaluation: The Contractor's performance on this project will be evaluated in accordance with SHA's Contractor Performance Evaluation Program. A copy of the Program may be obtained by accessing the following website:
http://seattlehousing.org/business/guidelines/pdf/Performance_Evaluation_Program.pdf.

Section 3: Section 3 of the Housing and Urban Development Act of 1968 (hereinafter "Section 3") requires SHA to the greatest extent feasible to provide employment opportunities to Section 3 residents. Section 3 residents include residents of SHA communities and other low-income residents of the metropolitan statistical area (MSA) covering King, Snohomish, and Pierce counties. Each bidder is required to submit with its Bid a Section 3 Resident Employment Plan that will result in hiring Section 3 residents to perform the work contemplated by this solicitation, and a Section 3 Business Certification form. Failure to complete these forms may render a bid non-responsive.

A. Selection Preference for Section 3 Businesses: If a bidder claims to be a Section 3 business on the Section 3 Business Certification form required to be submitted with its Bid, and the Bid of the Section 3 business exceeds the low bid by no more than 10%, SHA will conduct an investigation whether the business qualifies as a Section 3 business, and SHA may award the contract to the Section 3 business at the price bid by the Section 3 business. In submitting a Bid, the bidder agrees to provide any information required by SHA to determine whether the business qualifies as a Section 3 business. A business may qualify as a Section 3 business by meeting one of the following criteria:

1. At least 51% of the business is owned by Section 3 qualified persons who live in the metropolitan statistical area (MSA) covering King, Snohomish, and Pierce counties and meet the prescribed income limitations based on family size as shown on the Section 3 Business Certification form.

2. 30% or more of the business' permanent, full-time employees (core employees within the last 12 months) are Section 3 qualified persons who live in the metropolitan statistical area (MSA) covering King, Snohomish, and Pierce counties and meet the prescribed income limitations based on family size as shown on the Section 3 Business Certification form.

3. The business makes a commitment to subcontract with Section 3 businesses for more than 25% of the dollar amount of all subcontracts to be awarded by the business. Prior to award, such businesses must submit a plan and the necessary support documents describing how the subcontracting commitment will be met. SHA will evaluate the plan and documents submitted and determine whether it is likely the bidder will attain the subcontracting percentage. SHA will monitor the Section 3 business' compliance with their subcontracting commitment. The bidder's failure to fulfill the Section 3 subcontracting commitment shall be a material breach of contract which may result in SHA taking any or all of the following actions: (1) demanding specific performance of the subcontracting plan; (2) withholding from contract payments the dollar amount of any or all subcontracts that were to have been awarded to Section 3 businesses or such lesser amount as may be appropriate; (3) withholding any liquidated damages that SHA may incur as a result of the bidder's failure to comply with its Section 3 commitment and subcontracting plan; and (4) declaring the bidder ineligible to compete for, or participate in, any SHA contract for a period of five years from the acceptance date of the contract in which the Section 3 subcontracting commitment was made.

B. Section 3 Contract Language: The following language regarding Section 3 will be included as part of the contract to be executed based on this solicitation.

1. The work to be performed under this contract is subject to the requirements of Section 3 of the Housing and Urban Development Act of 1968, as amended, I 2 U.S.C. 1701u (Section 3). The purpose of Section 3 is to ensure that employment and other economic opportunities generated by HUD assistance or HUD-assisted projects covered by Section 3, shall, to the greatest extent feasible, be directed to low- and very low-income persons, particularly persons who are recipients of HUD assistance for housing.

2. The parties to this contract agree to comply with HUD's regulations in 24 CFR part 135, which implement Section 3. As evidenced by their execution of this contract, the parties to this contract certify that they are under no contractual or other impediment that would prevent them from complying with the part 135 regulations.

3. The contractor agrees to send to each labor organization or representative of workers with which the contractor has a collective bargaining agreement or other understanding, if any, a notice advising the labor organization or workers representative of the contractors commitments under this Section 3 clause, and will post copies of the notice in conspicuous places at the work site where both employees and applicants for training and employment positions can see the notice. The notice shall describe the Section 3 preference, shall set forth minimum number and job titles subject to hire, availability of apprenticeship and training positions, the qualifications for each; and the name and location of the person(s) taking applications for each of the positions; and the anticipated date the work shall begin.

4. The contractor agrees to include this Section 3 clause in every subcontract subject to compliance with regulations in 24 CFR part 135, and agrees to take appropriate action, as provided in an

applicable provision of the subcontractor in this Section 3 clause, upon a finding that the subcontractor is in violation of the regulations in 24 CFR part 135. The contractor will not subcontract with any subcontractor where the contractor has notice or knowledge that the subcontractor has been found in violation of the regulations in 24 CFR part 135.

5. The contractor will certify that any vacant employment positions, including training positions, that are filled (1) after the contractor is selected but before the contract is executed, and (2) with persons other than those to whom the regulations of 24 CFR part 135 require employment opportunities to be directed, were not filled to circumvent the contractors obligations under 24 CFR part 135.

6. Noncompliance with HUD's regulations in 24 CFR part 135 may result in sanctions, termination of this contract for default, and debarment or suspension from future HUD assisted contracts.

7. With respect to work performed in connection with Section 3-covered Indian Housing Assistance, Section 7(b) of the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450e) also applies to the work to be performed under this Contract. Section 7(b) requires that to the greatest extent feasible (i) preference and opportunities for training and employment shall be given to Indians, and (ii) preference in the award of contracts and subcontracts shall be given to Indian organizations and Indian-owned Economic Enterprises. Parties to this Contract that are subject to the provisions of Section 3 and Section 7(b) agree to comply with Section 3 to the maximum extent feasible, but not in derogation of compliance with Section 7(b).

8. If the Contractor is a Section 3 business and was awarded the contract by SHA based on the Section 3 business preference requirements of the invitation to bid for committing to subcontract more than 25% of the dollar amount of all subcontracts to Section 3 businesses, the Contractor agrees to meet the Section 3 subcontracting commitment. Failure of the Contractor to fulfill the Section 3 subcontracting commitment shall be deemed a material breach of contract, which may result in SHA taking any or all of the following actions: (1) demanding specific performance of the subcontracting plan; (2) withholding from contract payments the dollar amount of any or all subcontracts that were to have been awarded to Section 3 businesses or such lesser amount as may be appropriate, (3) withholding any liquidated damages that SHA may incur as a result of the Contractor's failure to comply with its Section 3 commitment and subcontracting plan; and (4) declaring the Contractor ineligible to compete for, or participate in, any SHA contract for a period of five years from the acceptance date of the contract in which the Section 3 subcontracting commitment was made.

SECTION 011000 - SUMMARY

PART 1 - GENERAL

1.1 RELATED DOCUMENTS

A. General provisions of the Contract, including General Conditions, Attachment A-Version 2, and other Specification Sections, apply to this Section.

1.2 SUMMARY

A. This Section includes the following:

1. Work covered by the Contract Documents.
2. Type of the Contract.
3. Use of premises.
4. Owner's occupancy requirements.
5. Work restrictions.
6. Specification formats and conventions.
7. Permits.
8. Governing Codes and Regulations.
9. Preconstruction Conference.

1.3 WORK COVERED BY CONTRACT DOCUMENTS

A. Project Identification: Center Park Spalling Concrete Repair

1. Project Location: **2121 26th Ave South, Seattle, WA, 98144**

B. Owner: Seattle Housing Authority, 190 Queen Anne Ave. N., P.O. Box 19028, Seattle, WA, 98109-1028

1. Owner's Representative:
   a. Ricky Phillips, Construction Project Manager.

C. The Work consists of the following:
1. Existing Conditions
   a. Center Park is a six-story apartment building owned and managed by Seattle Housing Authority.
   b. Building make up consists of brick and concrete exterior. Concrete structure is reinforced with rebar, no post tension construction is used.
   c. Building currently has GE OPTIC 2401 Silicon Coating applied over the brick and concrete exterior.
   d. Site conditions do not allow for full use of scaffolding at building perimeter. May need to use swing stage or similar equipment for accessing upper locations.
   e. There is minimal contractor parking on site.

f. No smoking allowed on property by Contractor or Subcontractors.
g. All building dimensions **must** be field verified by contractor. Do not scale plans.
h. All quantities of materials to be replaced or altered **must** be field verified by contractor.
i. Contractor to provide all labor and materials, unless stated otherwise. All tasks must be complete with uniform fit, function, form, style, and type. **Units will be occupied at all times during this work.**

2. Selective Demo
   a. Contractor will need to remove the GE OPTIC 2401 SILICON COATING from areas of repair to insure a strong bond is achieved.
   b. Refer to SS-1, SS-2, SS-3, and SS-4 details provided for instructions on how to address the areas of repair. Chip out part of the concrete around the rebar. The rebar should then be cleaned and primed. Patch the area per attached details.
   c. Chip out the concrete around the wire ties and repair per SS-3.
   d. Chip out and repair the guard rail post connection per SS-3.
   e. Replace the elastomeric coating.

3. Concrete
   a. Use the following products or equal as recommended by CT Engineers to perform the repairs;
      i. Sika Top 123 Plus
      ii. Sika Top 123 Plus Crack Filler
      iii. Sika Armatec 110 EpoCem.
   b. Refer to the product specification sheets provided by CT Engineers for correct installation of the above products.

4. Painting
   a. Once repair is completed and approved by Owner, provide and place GE OPTIC 2401 SILICON COATING or equal on areas where repair was performed.

5. Final cleaning:
   a. Contractor shall remove all construction debris daily.
   b. Dust and fines shall be wiped clean off of adjacent surfaces including but not limited to:
      i. Glazing
      ii. Balconies
      iii. Walkways
      iv. Doors
      v. Other adjacent surfaces

6. General Notes:
   a. Contractor to provide preliminary project schedule submitted before project Notice to Proceed. Schedule should be in MS Project and shall identify project duration, task duration, and include start and stop dates.
   b. Maintain access into buildings for mail delivery and emergency access during construction activities at main building entrances.

c. Power & water to be provided by contractor. No onsite power or water is provided.
d. SHA expect scaffolding to be used on buildings during construction.
e. SHA expects this project to be continually staffed / full time through the duration of the project
f. 48-Hour Notices required for posting before entering units, unless deemed as an emergency.
g. Use drop clothes and other protective methods to minimize damage from falling debris.
h. Project will be constructed under a single-prime, general construction contract.
i. The Contractor shall use Prevailing Wage rates when determining bid and for payment purposes to all eligible employees, as required by law.
j. Sales Tax: charged to Labor & Materials.

1.4 USE OF PREMISES

A. General: Contractor shall have limited use of premises for construction operations, including use of Project site, during construction period. Contractor's use of premises is limited only by Owner's right to perform work or to retain other contractors on portions of Project.

1. Owner Occupancy: Allow for Owner occupancy of Project site.
2. Driveways and Entrances: Keep driveways and entrances serving premises clear and available to Owner, Owner's employees, and emergency vehicles at all times. Contact the owner for placement location of waste containers and storage materials in the building parking areas. Inspection of asphalt and concrete surface prior to Work and at completion of work will be conducted by owner and contractor. Damage to asphalt from work will be repaired by the Contractor, solely at the Contractor expense, to Owner's satisfaction.

    a. Schedule deliveries to minimize use of driveways and entrances.
    b. Schedule deliveries to minimize space and time requirements for storage of materials and equipment on-site.
3. Parking: Reserved parking for Contractors is possible on a limited basis, otherwise parking is available in building parking lot and street on first come first serve basis.

1.5 OWNER'S OCCUPANCY REQUIREMENTS

A. Full Owner Occupancy: Owner will occupy site and existing buildings during entire construction period. Cooperate with Owner during construction operations to minimize conflicts and facilitate Owner usage. Perform the Work so as not to interfere with Owner's day-to-day operations. Maintain existing exits, unless otherwise indicated.

1. Maintain access to existing walkways, corridors, and other adjacent occupied or used facilities. Do not close or obstruct walkways, corridors, or other occupied or used facilities without written permission from Owner and authorities having jurisdiction.

2. Provide not less than 72 hours' notice to Owner of activities that will affect Owner's operations.

1.6 WORK RESTRICTIONS

A. On-Site Work Hours: Work shall be generally performed during normal business working hours of 8 a.m. to 5:00 p.m., Monday through Friday, unless otherwise indicated.

1. Work in units shall begin after 8:00am. Unit access is not allowed prior to 8:00am.

2. Weekend Hours: No weekend work permitted without owner permission.

3. No work is permitted on Holidays recognized by Seattle Housing Authority as listed below:
   a. New Year's Day.
   b. Martian Luther King Jr.'s Birthday.
   c. President's Day.
   d. Memorial Day.
   e. Independence Day.
   f. Labor Day.
   g. Thanksgiving Day & Day Following Thanksgiving Day.
   h. Christmas Day.

1.7 SPECIFICATION FORMATS AND CONVENTIONS

A. Specification Format: The Specifications are organized into Divisions and Sections using the 48-division format and CSI/CSC's "MasterFormat" numbering system.

B. Specification Content: The Specifications use certain conventions for the style of language and the intended meaning of certain terms, words, and phrases when used in particular situations. These conventions are as follows:

1. Abbreviated Language: Language used in the Specifications and other Contract Documents is abbreviated. Words and meanings shall be interpreted as appropriate. Words implied, but not stated, shall be inferred, as the sense requires. Singular words shall be interpreted as plural and plural words shall be interpreted as singular where applicable as the context of the Contract Documents indicates.

Item	Meaning
Accepted	Reviewed with no exceptions taken to submittal material. See "Submittal'.
Approved	Inspected and accepted by the Authority Having Jurisdiction.
Furnish	Deliver to the jobsite.
Install	To enter permanently into the project and make fully operational.
Provide	Furnish and install.

Required	As required by code, Authority Having Jurisdiction or contract documents For the particular installation to be fully operational.
Shown	As indicated on the drawings or details.
AHJ	Authority having jurisdiction.

2. Imperative mood and streamlined language are generally used in the Specifications. Requirements expressed in the imperative mood are to be performed by Contractor. Occasionally, the indicative or subjunctive mood may be used in the Section Text for clarity to describe responsibilities that must be fulfilled indirectly by Contractor or by others when so noted.

   a. The words "shall," "shall be," or "shall comply with," depending on the context, are implied where a colon (:) is used within a sentence or phrase.

1.8 PERMITS

A. It is the Contractor's responsibility to obtain all necessary permits and inspections as may be required to perform all aspects of the required work for this project including Right of Way and Street Use. The cost of any such permits and associated fees is to be included in the Contractor's bid amount.

B. Contractor shall arrange for and supply personnel for inspections of work by all AHJ Inspectors (including building permit inspections) and shall give the inspectors all necessary assistance in their work of inspection as required.

1.9 GOVERNING CODES AND REGULATIONS

A. The work shall be performed in accordance with applicable codes, and regulations. If any conflict occurs between government–adopted laws and drawings and this Specification, the laws are to govern. Nothing in the drawing or these specifications shall be construed to permit work not conforming to the governing laws. The preceding sentence shall not be construed as relieving the Contractor from complying with any requirements of those herein before mentioned governing laws and rules and not contrary to same.

B. The Contractor is required to be familiar with the details of these standards and any local codes and ordinances as they affect the installation of specific systems. The edition of the appropriate code or standard current at commencement of installation shall govern all installations.

1.10 PRECONSTRUCTION CONFERENCE

A. Attend a pre-construction conference before starting any work at a time agreed upon by both parties. The meeting agenda will be to review responsibilities and personnel assignments.

B. Agenda: Discuss items of significance that could affect progress, including the following:

1. Construction schedule.
2. Designation of responsible personnel.
3. Use of premises.
4. Parking availability.
5. Storage areas.
6. Equipment deliveries and priorities.
7. Safety procedures.
8. First Aid.
9. Security.
10. Working hours.

END OF SECTION 011000

CG ENGINEERING | civil & structural engineering & planning

STRUCTURAL OBSERVATION REPORT

Project: Center Park	**Purpose:** Structural Evaluation
Location: 2121 26th Ave S, Seattle, WA	**Date:** November 7th, 2017
CG Project: 14120.012	**Report:** 1
Client: Ricky Phillips	**General Contractor:** Unknown
Field Rep: Dennis Titus, PE, SE; Michaela Burr, EIT	

PURPOSE AND SCOPE

Field representatives of CG Engineering were on site on **October 10, 2017** to evaluate spalling concrete for the Center Park Apartments at the request of Ricky Phillips from Seattle Housing Authority.

EXISTING BUILDING

The existing building is a 6-story concrete and masonry apartment building. The interior walls are masonry and the exterior walls are a combination of brick and reinforced concrete. At the time of the site visit, rebar could be seen within the spalling concrete.

OBSERVATIONS & RECOMMENDATIONS

1. Concrete Planters – Each unit has a concrete planter which extends out from the building. The spalling concrete was observed on the underside of the outside edges of the planters. Additionally, there were water stains along the outside edge on the underside of the planters. It appears that water is running down the outside face of the planter and wicking to the underside. The rebar on the underside of the planters is very close to the edge and in some locations the concrete cover is less than ½". Of the visible planters, spalling was evident on approximately 20% of the planters. There were several areas where the planters had been previously patched and one location where spalling concrete was observed on the side of the planter. An emulsion coating which appeared to be original to the building construction was applied to the inside of the planters. It is unclear if the coating is still functional.
    - We recommend chipping out part of the concrete around the rebar. The rebar should then be cleaned and primed. Patch the area per the attached details. A waterproofing specialist should be retained to provide recommendations to prevent the water from wicking back under the planters.
2. Concrete Deck – There are common area decks made of concrete with a concrete guard rail wall and steel railing. The floors of the decks and tops of outside walls were coated with an aging elastomeric coating. Similar to the planters, the decks showed water stains and spalling on the underside. It appears that water is running down the outside and wicking under the outside edge of the deck. Additionally, spalling was observed on the inside of the concrete guard rail wall. Rust was observed at wire ties at regular spacing and in many locations there was spalling of rebar at these locations. It appears that the wire ties are letting water in and corroding the rebar causing spalling.
    - Chip out part of the concrete around the rebar. The rebar should then be cleaned and primed. Patch the area per the attached details.

Edmonds, WA 98020
ph. 425.778.8500 | f. 425.778.5536
www.cgengineering.com

- Chip out the concrete around the wire ties and repair per SS-3.
- Chip out and repair the guard rail post connection per SS-3.
- Replace the elastomeric coating.

3. General Construction Recommendations – The above recommendations and attached details are generic for conditions observed. The details will not apply to all conditions. We recommend that once the repair project is scheduled and scaffolding is in place that a thorough investigation be completed for each deck and planter. Where required specific details can be provided.

TESTED PER ICRI GUIDELINE FOR INORGANIC REPAIR MATERIAL DATA SHEET PROTOCOL GUIDELINE NO. 320.3R

Construction

SikaTop® 123 PLUS

Two-component, polymer-modified, cementitious, non-sag mortar plus Sika FerroGard® 901 penetrating corrosion inhibitor

Description

SikaTop® 123 PLUS is a two-component, polymer-modified, Portland cement-based, fast-setting, non-sag mortar. It is a high performance repair mortar for vertical and overhead surfaces and offers the additional benefit of Sika FerroGard® 901, a penetrating corrosion inhibitor included in its formulation.

Where to Use

- On grade, above and below grade on concrete and mortar.
- On vertical and overhead surfaces.
- As a structural repair material for parking structures, industrial plants, walkways, bridges, tunnels, dams and ramps.
- Approved for repairs over cathodic protection systems

Advantages

- Extremely low shrinkage **proven by four industry standard test methods.**
- High compressive and flexural strengths.
- Increased freeze/thaw durability and resistance to deicing salts.
- Compatible with coefficient of thermal expansion of concrete - Passes ASTM C 884.
- Increased density - improved carbon dioxide resistance (carbonation) without adversely affecting water vapor transmission (not a vapor barrier).
- Enhanced with Sika FerroGard® 901, a penetrating corrosion inhibitor - reduces corrosion even in the adjacent concrete.
- USDA certifiable for incidental food contact
- ANSI/NSF Standard 61 potable water approved compliant.

Coverage

0.39 cu. ft./ unit.

Packaging

Component 'A' - 1-gal. plastic jug; 4/carton. **Component 'B'** - 44-lb. multi-wall bag.

Typical Data ***(Material and curing conditions @ 73°F (23°C) and 50% R.H.)***

RESULTS MAY DIFFER BASED UPON STATISTICAL VARIATIONS DEPENDING UPON MIXING METHODS AND EQUIPMENT, TEMPERATURE, APPLICATION METHODS, TEST METHODS, ACTUAL SITE CONDITIONS AND CURING CONDITIONS.

Shelf Life	One year in original, unopened packaging.		
Storage Conditions	Store dry at 40°-95°F. Condition material to 65°-75°F before using. Protect Component 'A' from freezing. If frozen, discard.		
Color	Concrete gray when mixed.		
Mixing Ratio	Plant-proportioned kit, mix entire unit.		
Application Time	Approximately 15 minutes.		
Finishing Time	20-60 minutes		
Note:	All times start after adding Component 'B' to Component 'A' and are highly affected by temperature, relative humidity, substrate temperature, wind, sun and other job site conditions.		
Density (wet mix)	**ASTM C 138**		132 lbs./ft³ (2.2 kg./l)
Flexural Strength	**ASTM C 293**	28 days	1,500 psi
Split Tensile	**ASTM C 496**	28 days	900 psi
Bond Strength	**ASTM C 882 (modified)**	28 days	2,000 psi
Compressive Strength	**ASTM C 109**		
		1 day	3,000 psi
		7 days	4,000 psi
		28 days	6,000 psi
Shrinkage	**ASTM C 157 (mod. ICRI 320.3R)**		
Specimen Size 1x1x11-1/4"		28 days	0.05%
Specimen Size 3x3x11-1/4"		28 days	0.038%
Ring Test (days)	**ASTM C 1581**		>70 days
Ring Test - Average Max Strain	**ASTM C 1581**		-36 µstrain
Ring Test - Average Stress Strain	**ASTM C 1581**		4.92 psi/day
Ring Test - Potential for Cracking	**ASTM C 1581**		Low
Baenzinger Block		90 days	No cracking
Freeze/Thaw Durability (300 cycles)	**ASTM C 666**		98%
Cl Permeability (coul)	**ASTM C 1202**		<500 Coulombs.
Direct Bond Strength	**ASTM C 1583**	28 days	500 psi (substrate failure)
Modulus of Elasticity	**ASTM C 531**		2.94 x 10^6 psi
Initial Set Time (min)	**ASTM C 266**		20-40
Final Set Time (min)	**ASTM C 266**		<75

Construction

How to Use

Substrates	Concrete, mortar, and masonry products.
Surface Preparation	Remove all deteriorated concrete, dirt, oil, grease and all bond inhibiting materials from surface. Be sure repair area is not less than 1/8 inch in depth. Preparation work should be done by high pressure water blast, scabbler, or other appropriate mechanical means to obtain an exposed aggregate surface with a minimum surface profile of ±1/16 inch (CSP-5). Saturate surface with clean water. Substrate should be saturated surface dry (SSD) with no standing water during application. **Reinforcing Steel:** Steel reinforcement should be thoroughly prepared by mechanical cleaning to remove all traces of rust. Where corrosion has occurred due to the presence of chlorides, the steel should be high-pressure washed with clean water after mechanical cleaning. For priming of reinforcing steel use Sika® Armatec® 110 EpoCem (consult Product Data Sheet). **Priming Concrete Substrate:** Prime the prepared substrate with a brush or sprayed applied coat of Sika® Armatec® 110 EpoCem (consult Product Data Sheet). Alternately, a scrub coat of SikaTop® 123 PLUS can be applied prior to placement of the mortar. The repair mortar has to be applied into the wet scrub coat before it dries.
Mixing	Pour Component 'A' into mixing container. Add Component 'B' while mixing continuously. Mix mechanically with a low-speed drill (400 - 600 rpm) and mixing paddle or mortar mixer. Mix to a uniform consistency, maximum 3 minutes. Manual mixing can be tolerated only for less than a full unit. Thorough mixing and proper proportioning of the two components is necessary.
Application	SikaTop® 123 PLUS must be scrubbed into the substrate, filling all pores and voids. Force material against edge of repair, working toward center. After filling repair, consolidate, then screed. Material may be applied in multiple lifts. The thickness of each lift, not to be less than 1/8 inch minimum or more than 1.5 inches maximum. Where multiple lifts are required score top surface of each lift to produce a roughened surface for next lift. Allow preceding lift to reach initial set, 30 minutes minimum, before applying fresh material. Saturate surface of the lift with clean water. Scrub fresh mortar into preceding lift. Allow mortar or concrete to set to desired stiffness, then finish with wood or sponge float for a smooth surface.
Tooling & Finishing	As per ACI recommendations for portland cement concrete, curing is required. Moist cure with wet burlap and polyethylene, a fine mist of water or a water based*, compatible curing compound (ASTM C 309 complaint). Curing compounds adversely affect the adhesion of following lifts of mortar, leveling mortar or protective coatings. Moist curing should commence immediately after finishing. If necessary protect newly applied material from direct sunlight, wind, rain and frost. *Pretesting of curing compound is recommended.
Limitations	■ Application thickness: Minimum 1/8 inch (3 mm). Maximum in one lift - 1.5 in. (38 mm). ■ Minimum ambient and surface temperatures 45°F (7°C) and rising at time of application. ■ Do not use solvent-based curing compound. ■ Size, shape and depth of repair must be carefully considered and consistent with practices recommended by ACI or ICRI. For additional information, contact Technical Service. ■ For additional information on substrate preparation, refer to ICRI Guideline No. 310.2R re: Polymer Overlays and Concrete Repair. ■ If aggressive means of substrate preparation is employed, substrate strength should be tested in accordance with ACI 503 Appendix A prior to the repair application. ■ As with all cement based materials, avoid contact with aluminum to prevent adverse chemical reaction and possible product failure. Insulate potential areas of contact by coating aluminum bars, rails, posts etc. with an appropriate epoxy such as Sikadur® 32, Hi-Mod.

BUILDING TRUST

Section 03730
Concrete

Part 1 - General

1.01 Summary

This specification describes the patching of interior and/or exterior vertical or overhead surfaces with a polymer-modified, portland cement mortar.

1.02 Quality Assurance

A. Manufacturing qualifications: The manufacturer of the specified product shall be ISO 9001 certified and have in existence a recognized ongoing quality assurance program independently audited on a regular basis.

B. Contractor qualifications: Contractor shall be qualified in the field of concrete repair and protection with a successful track record of 5 years or more. Contractor shall maintain qualified personnel who have receivced product training by a manufacturer's representative.

C. Install materials in accordance with all safety and weather conditions required by manufacturer or as modified by applicable rules and regulations of local, state and federal authorities having jurisdiction. Consult Material Safety Data Sheets for complete handling recommendations.

1.03 Delivery, Storage, and Handling

A. All materials must be delivered in original, unopened containers with the manufacturer's name, labels, product identification, and batch numbers. Damaged material must be removed from the site immediately.

B. Store all materials off the ground and protect from rain, freezing or excessive heat until ready for use.

C. Condition the specified product as recommended by the manufacturer.

1.04 Job Conditions

A. Environmental Conditions: Do not apply material if it is raining or snowing or if such conditions appear to be imminent. Minimum application temperature 45°F (5°C) and rising.

B. Protection: Precautions should be taken to avoid damage to any surface near the work zone due to mixing and handling of the specified material.

1.05 Submittals

A. Submit two copies of manufacturer's literature, to include: Product Data Sheets (PDS), and appropriate Safety Data Sheets (SDS).

B. Submit copy of Certificate of Approved Contractor status by manufacturer.

1.06 Warranty

Provide a written warranty from the manufacturer against defects of materials for a period of one (1) year, beginning with date of substantial completion of the project.

Part 2 - Products

2.01 Manufacturer

SikaTop® 123 PLUS, as manufactured by Sika® Corporation, is considered to conform to the requirements of this specification.

2.02 Materials

Polymer-modified Portland cement mortar:

A. Component A shall be a liquid polymer emulsion of an acrylic copolymer base and additives.

   a. pH: 4.5-6.5

   b. Film Forming Temperature: 73°F max.

   c. Tear Strength: 950 psi min.

   d. Elongation at Break: 500% min.

   e. Particle Size: less than 0.1 micron

B. Component A shall contain an organic, penetrating corrosion inhibitor which has been independently proven to reduce corrosion in concrete via ASTM G3 (half-cell potential tests). The corrosion inhibitor shall not be calcium nitrite, and shall have a minimum of 5 years of independent field testing to document performance on actual construction projects.

C. Component B shall be a blend of selected portland cements, specially graded aggregates, admixtures for controlling setting time, water reducers for workability, and an organic accelerator.

D. The materials shall be non-combustible, both before and after cure.

E. The materials shall be supplied in a factory-proportioned unit.

F. The polymer-modified, portland cement mortar must be placeable from 1/8" to 1½ " in depth per lift for vertical applications and 1/8" to 1" in depth for overhead applications.

2.03 Performance Criteria

Typical Properties of the mixed polymer-modified, portland cement mortar:

1. Yield	Approximately 0.39 cu. ft. per 44 lb. bag
2. Color	Concrete gray
3. Density {wet mix} (ASTM C-185)	132 lbs/cu.ft
4. Mixing Ratio	1 gal of SikaTop® Component A per 44 lb. bag
5. Application Thickness	Min 1/8" (3 mm); Max 1.5 " (38 mm)
6. Application Temp	Min 50°F (10°C) ; Max 86°F (30°C)
7. Working Time	15 min.
8. Finishing Time	20 - 60 min
9. Compressive Strength (ASTM C-109)	1 day - 3,000 psi (21 MPa)
	7 days - 4,000 psi (28 MPa)
	28 days - 6,000 psi (41 MPa)
10. Flexural Strength @ 28 days (ASTM C-293)	1,500 psi (10 MPa)
11. Bond Strength @ 28 days (ASTM C-882 Modified)	2,000 psi (14 MPa)
12. Permeability (ASTM C-1202)	< 500 Coulombs

Note: Tests above were performed with the material and curing conditions @ 71°F – 75°F and 45 - 55% relative humidity.

Part 3 – Execution

3.01 Surface Preparation

A. Areas to be repaired must be clean, sound, and free of contaminants. All loose and deteriorated concrete shall be removed by mechanical means. Mechanically prepare concrete substrate to obtain a surface profile of ± 1/16" (CSP 5 or greater as per ICRI Guidelines) with a new exposed aggregate surface. Area to be patched shall not be less than 1/8" in depth.

B. Where reinforcing steel with active corrosion is encountered, sandblast the steel to a white metal finish to remove all contaminants and rust. Where corrosion has occurred due to the presence of chlorides, the steel shall be high pressure washed after mechanical cleaning. Prime steel with 2 coats of Sika® Armatec® 110 EpoCem as per the Product Data Sheet. (See Spec Component SC-201-0699)

3.02 Mixing and Application

A. Mechanically mix in an appropriate sized mortar mixer or with a Sika mud paddle and low speed (400-600 rpm) drill. Pour approximately 4/5 gal Component A into the mixing container. Add Component B while continuing to mix. Mix to a uniform consistency for a maximum of three minutes. Add remaining Component A to mix for desired consistency. Should smaller quantities be needed, be sure the components are measured in the correct ratio and that the Component B is uniformly blended before mixing the components together. Mix only that amount of material that can be placed in 10 - 15 minutes. Do not retemper material.

B. Placement Procedure: At the time of application, the substrate shall be saturated surface dry with no standing water. Mortar must be scrubbed into substrate filling all pores and voids. While the scrub coat is still plastic, force material against edge of repair, working toward center. If repair area is too large to fill while scrub coat is still wet use Sika® Armatec® 110 EpoCem in lieu of scrub coat. (See spec component SC-200-0699) After filling, consolidate then screed. Allow mortar to set to desired stiffness then finish with trowel for smooth surface. Wood float or sponge float for a rough surface. Areas where the depth of the repair area to sound concrete is greater than 1-1/2", the repair shall be made in lifts of 1½ " maximum thickness. The top surface of each lift shall be scored to produce a rough surface for the next lift. The preceding lift shall be allowed to reach final set before applying fresh material. The fresh mortar must be scrubbed into the preceding lift.

C. As per ACI recommendations for portland cement concrete, curing is required. Moist cure with wet burlap and polyethylene, a fine mist of water or a water-based* compatible curing compound. Moist curing should commence immediately after finishing and continue for 48 hours. Protect newly applied material from rain, sun, and wind until compressive strength is 70% of the 28 day compressive strength. To prevent from freezing cover with insulating material. Setting time is dependent on temperature and humidity.

*Pretesting of curing compound is recommended.

D. Adhere to all procedures, limitations and cautions for the polymer-modified portland cement mortar in the manufacturers current printed technical data sheet and literature.

3.02 Cleaning

A. The uncured polymer-modified portland cement mortar can be cleaned from tools with water. The cured polymer modified portland cement mortar can only be removed mechanically.

B. Leave finished work and work area in a neat, clean condition without evidence of spillovers onto adjacent areas.

BUILDING TRUST

SC-027

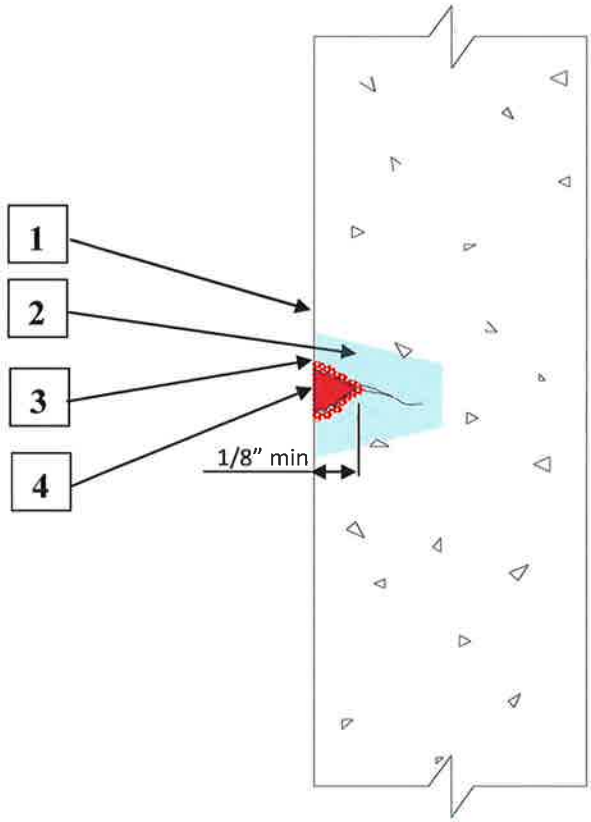
SikaTop® 123 Plus Crack Filler (Vertical / Overhead)

1. Substrate shall be clean, sound and lattinance-free prior to repairing.

2. Pre-soak the substrate to provide saturated surface dry (SSD) condition prior to applying repair material. (Exception: not applicable if Sikadur 32 Hi-Mod or Sikadur Patch-Fix is used as an epoxy agent)

3. Apply scrub coat of the repair material to the prepared substrate. (Exception: not applicable if Sikadur® 32 Hi-Mod or Sikadur Patch-Fix is used as an epoxy agent)

4. While scrub coat is wet place SikaTop® 123 PLUS, filling the entire cavity. Strike off and finish as required. Wet cure or use Sikagard Curing Compound and protect as per the PDS.



Concrete Restoration Systems by Sika Corporation, 201 Polito Avenue, Lyndhurst, NJ 07071

Construction

Sika® Armatec® 110 EpoCem

Bonding Agent and Reinforcement Protection

Description	Sika® Armatec® 110 EpoCem is a 3-component, solvent-free, moisture-tolerant, epoxy-modified, cementitious product specifically formulated as a bonding agent and anti-corrosion coating.
Where to Use	■ As an anti-corrosion coating for reinforcing steel in concrete restoration. ■ As added protection to reinforcing steel in areas of thin concrete cover. ■ As a bonding agent for repairs to concrete and steel. ■ As a bonding agent for placing fresh, plastic concrete to existing hardened concrete.
Advantages	■ Excellent adhesion to concrete and steel. ■ Acts as an effective barrier against penetration of water and chlorides. ■ Long open time - up to 16 hours. ■ Not a vapor barrier. ■ Can be used exterior on-grade. ■ Contains corrosion inhibitors. ■ Excellent bonding bridge for cement or epoxy based repair mortars. ■ High strength, unaffected by moisture when cured. ■ Spray, brush or roller application. ■ Non-flammable, solvent free.
Coverage	**Bonding agent:** minimum (theoretical) on smooth, even substrate 80 ft.²/gal. (=20 mils thickness). Coverage will vary depending on substrate profile and porosity. **Reinforcement Protection:** 40 ft.²/gal. (=20 mils thickness) (2 coat application).
Packaging	3.5 gal. unit. (47.6 fl. oz. Comp. A + 122.1 fl. oz. Comp. B + 46.82 lb. Comp. C) Comp. A + B in carton, Comp. C in multi-wall bag. 1.65 gal. unit. (22.7 fl. oz. A + 57.6 fl. oz. B + 4 bags @ 5.5 lb.) Factory-proportioned units in a pail.

Typical Data *(Material and curing conditions @ 73°F and 50% R.H.)*

RESULTS MAY DIFFER BASED UPON STATISTICAL VARIATIONS DEPENDING UPON MIXING METHODS AND EQUIPMENT, TEMPERATURE, APPLICATION METHODS, TEST METHODS, ACTUAL SITE CONDITIONS AND CURING CONDITIONS.

Shelf Life	1 year in original, unopened packaging.		
Storage	Store dry at 40°-95°F (4°-35°C). Condition material to 65°-75°F (18°-24°C) before using. If components A and B are frozen, discard. Protect Component C from humidity.		
Color	Concrete gray		
Density (Mixed)	125 lb./ft.³ (2.0 kg.)		
Pot Life	Approximately 90 minutes		
Compressive Strength (ASTM C-109)	3 days	4500 psi	(31.0 MPa)
	7 days	6500 psi	(44.8 MPa)
	28 days	8500 psi	(58.6 MPa)
Flexural Strength (ASTM C-348)	28 days	1250 psi	(8.6 MPa)
Splitting Tensile Strength (ASTM C-496)	28 days	600 psi	(4.1 MPa)

Important Data for Sika Armatec 110 as a Corrosion Protective Coating

Water	Water Permeability at 10 bar (145 psi)	8.92×10^{-15} ft./sec.
	Control	7.32×10^{-10} ft./sec.
	Water vapor diffusion coefficient μ H_2O	110
Carbon Dioxide	Carbon dioxide diffusion coefficient μ CO_2	14000

TEST DATA: Time-to-Corrosion Study
- Sika® Armatec® 110 more than tripled the time to corrosion
- Reduced corrosion rate by over 40%

Construction

Important Data for Sika® Armatec® 110 as a Bonding Agent

Bond Strength (ASTM C882)	**14 days moist cure, plastic concrete to hardened concrete:**	
Wet on Wet	2800 psi	(19.3 MPa)
24 hr. Open Time	2600 psi	(17.9 MPa)
Bond of Steel Reinforcement to Concrete (Pullout Test):		
Sika® Armatec® 110 Coated	625 psi	(4.3 MPa)
Epoxy Coated	508 psi	(3.5 MPa)
Plain Reinforcement	573 psi	(3.95 MPa)

How to Use

Surface Preparation

Cementitious substrates: Should be cleaned and prepared to achieve a laitance and contaminant-free surface prepared in accordance with the requirements specified by the overlay or repair material by blast cleaning or equivalent mechanical means. Substrate must be saturated surface dry (SSD) with no standing water.

Steel: Should be fully exposed and have all corrosion removed by blast cleaning or other means of mechanical abrasion

Mixing

Shake contents of both Component 'A' and Component 'B'. Empty entire contents of both Component 'A' and Component 'B' into a clean, dry mixing pail. Mix thoroughly for 30 seconds with a Sika paddle on a low speed (400-600 rpm) drill. Slowly add the entire contents of Component 'C' while continuing to mix for 3 minutes until blend is uniform and free of lumps. Mix only that quantity that can be applied within its pot life.

Application

As a bonding agent - Apply by stiff-bristle brush or broom. Spray apply with Goldblatt Pattern Pistol or equal equipment. For best results, work the bonding slurry well into the substrate to ensure complete coverage of all surface irregularities. Apply the freshly mixed patching mortar or concrete wet on wet, or up to the maximum recommended open time, onto the bonding slurry.

Maximum recommended open time between application of Armatec® 110 and patching mortar or concrete:

80°-95°F (26°-35°C)	6 hours
65°-79°F (18°-26°C)	12 hours
50°-64°F (10°-17°C)	16 hours
40°-49°F (4°-9°C)	wet-on-wet

For corrosion protection only - Apply by stiff-bristle brush or spray at 80 ft.²/gal. (20 mils). Take special care to properly coat the underside of the totally exposed steel. Allow coating to dry 2-3 hours at 73°F, then apply a second coat at the same coverage. Allow to dry again before the repair mortar or concrete is applied. Pour or place repair within 7 days.

Limitations

- Substrate and ambient temperature: Minimum 40°F (5°C).
- Maximum 95°F (35°C).
- Minimum thickness: As a bonding agent 20 mils.
- For reinforcement protection 40 mils.
- (2 coats, 20 mils each).
- Not recommended for use with expansive grouts.
- Use of semi-dry mortars onto Sika® Armatec® 110 EpoCem must be applied "wet on wet".
- When used in overhead applications with hand placed patching mortars, use "wet on wet" for maximum mortar built thickness.
- Substrate profile as specified by the overlay or repair material is still required.
- As with all cement based materials, avoid contact with aluminum to prevent adverse chemical reaction and possible product failure. Insulate potential areas of contact by coating aluminum bars, rails, posts etc. with an appropriate epoxy such as Sikadur® Hi-Mod 32.

DIVISION 3 - CONCRETE
Section 03300 - Cast-in-Place Concrete
Bonding Agents for Concrete

Part 1 - General

1.01 Summary

A. This specification describes the use of a bonding bridge between new portland-cement mortar or concrete and hardened portland-cement mortar or concrete.

1.02 Quality Assurance

A. Manufacturing qualifications: The manufacturer of the specified product shall be ISO 9001 certified and have in existence a recognized ongoing quality assurance program independently audited on a regular basis.

B. Contractor qualifications: Contractor shall be qaulified in the field of concrete repair and protection with a successful track record of 5 years or more. Contractor shall maintain qaulified personnel who have receivced product training by a manufacturer's representative.

C. Install materials in accordance with all safety and weather conditions required by manufacturer, or as modified by applicable rules and regulations of local, state and federal authorities having jurisdiction. Consult Material Safety Data Sheets for complete handling recommendations.

1.03 Delivery, Storage, and Handling

A. All materials must be delivered in original, unopened containers with the manufacturer's name, labels, product identification, and batch numbers. Damaged material must be removed from the site immediately.

B. Store all materials off the ground and protect from rain, freezing or excessive heat until ready for use.

C. Condition the specified product as recommended by the manufacturer.

1.04 Job Conditions

A. Environmental Conditions: Do not apply material if it is raining or snowing or if such conditions appear to be imminent. Minimum application temperature 40°F (5°C) and rising.

B. Protection: Precautions should be taken to avoid damage to any surface near the work zone due to mixing and handling of the specified coating.

1.05 Submittals

A. Submit two copies of manufacturer's literature, to include: Product Data Sheets, and appropriate Material Safety Data Sheets (MSDS).

1.06 Warranty

A. Provide a written warranty from the manufacturer against defects of materials for a period of one (1) year, beginning with date of substantial completion of the project.

Part 2 - Products

2.01 Manufacturers

A. **Sika Armatec 110 EpoCem**, as manufactured by Sika Corporation, is considered to conform to the requirements of this specification.

2.02 Materials

A. Epoxy resin/portland cement adhesive shall be **Sika Armatec 110 EpoCem**

1. Component "A" shall be an epoxy resin/water emulsion containing suitable viscosity control agents. It shall not contain butyl glycidyl ether.
2. Component "B" shall be primarily a water solution of a polyamine.
3. Component "C" shall be a blend of selected portland cements and sands.
4. The material shall not contain asbestos.

2.03 Performance Criteria

A. Properties of the mixed epoxy resin/portland cement adhesive.

1. Pot Life: 90 minutes @ 73° F
2. Contact Time: 95°F (35°C) 6 hours
   80-95F (26-35C) 6 Hours
   65-79F (18-26C) 12 Hours
   50-64F (10-17C) 16 Hours
   40-49F (4-9C) wet on wet
3. Color: dark gray

B. Properties of the cured epoxy resin/portland cement adhesive.

1. Compressive Strength (ASTM C-109)
   a 3 day: 4500 psi (31.0 MPa)
   b. 7 day: 6500 psi (44.8 MPa)
   c. 28 day: 8500 psi (58.6 MPa)
2. Splitting Tensile Strength (ASTM C-496)
   a. 28 days: 600 psi (4.1 MPa)
3. Flexural Strength (ASTM C-348)
   a. 1250 psi (8.6 MPa)
4. Bond Strength ASTM C-882 at 14 days
   a. Wet on Wet, 0-hr. open time: 2800 psi (19.3 MPa)
   b. 24-hr. open time: 2600 psi (17.9 MPa)
5. Bond of Steel Reinforcement to Concrete (Pullout Test)
   a. Sika Armatec 110 coated 625-psi (4.3 MPa)
   b. Epoxy coated 508 psi (3.5 MPa)
   c. Plain Reinforcement 573 psi (3.95 MPa)
6. The epoxy resin/portland cement adhesive shall not produce a vapor barrier.
7. Material must be proven to prevent corrosion of reinforcing steel when tested under the procedures as set forth by the Federal Highway Administration Program Report No. FHWA/RD86/193. Proof shall be in the form of an independent testing laboratory corrosion report showing prevention of corrosion of the reinforcing steel.

Note: Tests above were performed with material and curing conditions at 73°F and 45-55% relative humidity.

Part 3 - Execution

3.01 Mixing and Application

A. Mixing the epoxy resin: Shake contents of Components "A" and Component "B". Completely empty both components into a clean, dry mixing pail. Mix thoroughly for 30 seconds using a jiffy paddle with a low-speed (400-600 rpm) drill. Slowly add the entire contents of Component "C" while continuing to mix for 3 minutes until uniform with no lumps. Mix only that quantity that can be applied within its pot life.

B. Placement procedure:

1. Apply to prepared surface with a stiff-bristle brush, broom or "hopper type" spray equipment.
   a. For hand-applied mortars - Place fresh, plastic concrete/mortar while the bonding bridge adhesive is "wet" or within open times indicated in section 2.03.A.2.
   b. For machine-applied mortars - Apply while the bonding bridge adhesive is "wet" or within the open times indicated in section 2.03.A.2.

C. Adhere to all limitations and cautions for the epoxy resin/portland cement adhesive in the manufacturers current printed literature.

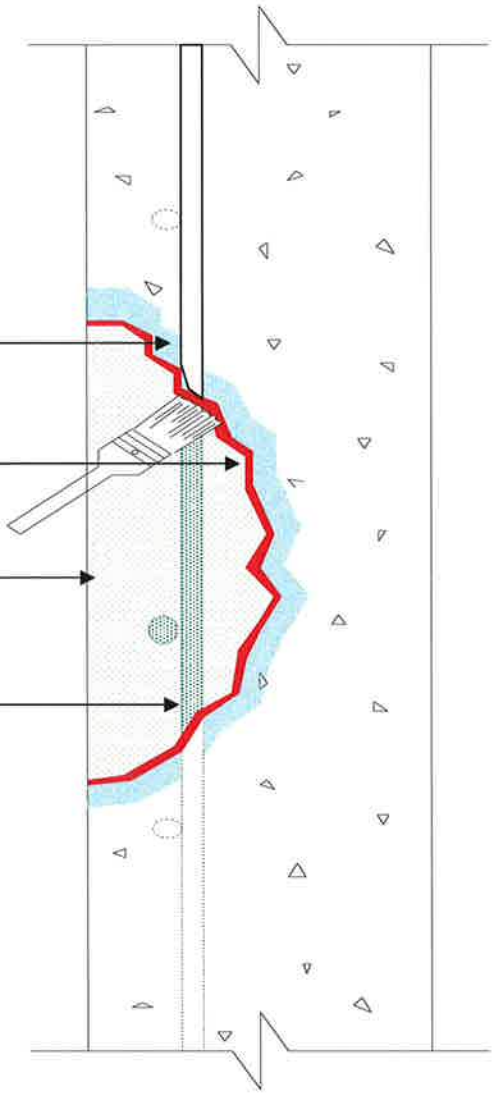
3.02 Cleaning

A. The uncured epoxy resin/portland cement adhesive can be cleaned from tools with water. The cured epoxy resin/portland cement adhesive can only be removed mechanically.

B. Leave finished work and work area in a neat, clean condition without evidence of spillovers onto adjacent areas.

SC-200 Sika® Armatec 110 EpoCem Bonding Bridge

1. Pre-wet surface to saturated surface dry (SSD).
2. Apply by stiff bristle brush or spray apply with "hopper type" or equal equipment.
3. Place repair material while **Sika Armatec 110 EpoCem** is still wet or within indicated open times.
4. Indicates Sika Armatec 110 EpoCem applied to reinforcing steel per Spec Component SC-201



The preceding specifications are provided by Sika Corporation as a guide for informational purposes only and are not intended to replace sound engineering practice and judgment and should not be relied upon for that purpose. **SIKA CORPORATION MAKES NO WARRANTY OF ANY KIND, EITHER EXPRESS OR IMPLIED, AS TO THE ACCURACY, COMPLETENESS OR THE CONTENTS OF THESE GUIDE SPECIFICATIONS.** Sika Corporation assumes no liability with respect to the provision or use of these guide specifications, nor shall any legal relationship be created by, or arise from, the provision of such specifications **SIKA SHALL NOT BE RESPONSIBLE UNDER ANY LEGAL THEORY TO ANY THIRD PARTY FOR ANY DIRECT OR CONSEQUENTIAL DAMAGES OF ANY KIND ARISING FROM THE USE OF THESE GUIDE SPECIFICATIONS.** The specifier, architect, engineer or design professional or contractor for a particular project bears the sole responsibility for the preparation and approval of the specifications and determining their suitability for a particular project or application.

Prior to each use of any Sika product, the user must always read and follow the warnings and instructions on the product's most current Technical Data Sheet, product label and Material Safety Data Sheet which are available at www.sikaconstruction.com or by calling (201) 933-7452. Nothing contained in any Sika materials relieves the user of the obligation to read and follow the warnings and instructions for each Sika product as set forth in the current Technical Data Sheet, product label and Material Safety Data Sheet prior to product use.

Lead-Based Paint Disclosure and/or Lead-Based Paint Hazard

Date: February 13, 2008

010 Center Park
2121 26th Avenue S
Seattle, WA 98144

Lead-Based Paint testing and inspection were completed on all interior and exterior buildings, which included units and common areas. It was determined that Lead-Based Paint exists in the following areas:

EXTERIOR:

- ☐ **Siding**
- ☐ **Trims**
- ☐ **Doors and Frames**
- ☐ **Windows and Frames**
- ☐ **Porches and Decks**
- ☐ **Other Porch Handrails (Metal)**
- ☒ **All painted surfaces tested below EPA/HUD's allowable limits for lead in paint**

INTERIOR:

- ☐ **Ceilings**
- ☐ **Walls**
- ☐ **Trims**
- ☐ **Doors and Frames**
- ☐ **Windows and Frames**
- ☐ **Floors**
- ☐ **Cabinetry**
- ☒ **Other Basement floor**
- ☐ **All painted surfaces tested below EPA/HUD's allowable limits for lead in paint**

To review the complete Lead-Based Paint Inspection Report for this property, or would like a copy of any Lead-Based Paint documentation regarding this property please contact your property manager.

TABLE OF CONTENTS

10. Center Park

1.0 SUMMARY

A lead-based paint inspection was conducted at Center Park Apartments located at 2121 26th Ave. S., Seattle, Washington. At the request of Ms. Lorrie Harris of Seattle Housing Authority, Mr. Antonio Herrera, a Washington CTED- certified Lead Risk Assessor and representative of NVL Laboratories, Inc conducted this lead-based paint inspection on May 16th and 17th, 2007.

Painted surfaces were evaluated with a Niton XLP 300A spectrum analyzer, serial number 31566NR8116. Exterior and interior living areas were evaluated for lead hazards. The instrument was auto-calibrated just prior to testing. Immediately after a NIST reference sample was tested in triplicate. These values were averaged and found to be within the accepted limits (NIST SRM used for calibration was 1.04 +/- 0.06). Calibration check was also performed at the end of the testing for this dwelling.

All building components in each unit facing the front door are labeled as A and increases clockwise or anti clockwise depending on the floor plan. The components in the hallways for each floor which face 26th Ave. S. are labeled as A and increases clockwise. Room equivalent (an identifiable part of a residence such as a room, house exterior, staircase, hallway, or a painted exterior area) is numbered starting at the living room and increases clockwise or anti-clockwise (depending on the floor plan) as indicated in Appendix B (Floor Plan). Components are numbered from left to right when facing that particular side. Main entrance into laundry room is labeled as Side A and increases clockwise.

For exterior testing, 26th Ave. S. is considered to be Side A, and increased clockwise.

Twenty six (26) out of one hundred thirty six (136) units, exterior painted components, and common areas (laundry rooms) were tested for lead-based paint as per Table 7-3 of HUD Guidelines.

SITE DESCRIPTION

- This is a 136 unit apartment building. The year of construction for this structure is 1969.
- The primary external component is brick with a concrete foundation.
- Gutters and downspouts are metal.
- Windows are vinyl framed windows with brick framing.
- Door systems (Doors, door casings and door jambs), closet door systems (closet doors, closet door casings and closet door jambs), window stools, and baseboards are wood without paint.
- The floor plan is different for each type of unit (studio, one bedroom, and two bedroom units). Each unit includes a kitchen/dinette, and one bathroom.
- The interior walls and ceilings are a mix of drywall and concrete blocks throughout.
- The kitchen has wooden cabinets split in two halves with clear stain/varnish.
- The floors are vinyl floor tile in the living room, bedroom, kitchen and halls, and sheet vinyl in the bathroom.
- The paint on the interior is mostly in "Fair" condition.

2. 0 FINDINGS

Painted Surfaces:

The lead-based paint inspection of Center Park Apartments lasted two days. A total of five hundred seventy five (575) shots of XRF (including calibration readings) were taken at different locations (Interior, Exterior and Common Areas) to identify lead-based paint (at or above 1.0 mg / cm^2) as per WAC 365-230. Complete detail of components, locations, and results of inspection on May 16th and 17th, 2007 is attached in Appendix A (Instrument (XRF) & Calibration Data).

Out of five hundred sixty one (561) testing combinations tested within the subject structures, **TEN (10)** of the components tested positive for lead-based paint (at or above EPA/CTED threshold of 1.0 mg/cm^2).

As per attached excerpt from EPA/HUD guideline, for lead-based paint inspection of multi family housing, if greater then 15% of positive XRF readings are present in the development, then the lead-based paint is considered to be present development wide. In the case of Center Park Apartments, 1.8% of the testing combinations tested positive for lead-based paint. As per attached flow chart excerpt from EPA/HUD guideline, lead-based paint is not present development wide in Center Park Apartments.

Following are the results of the components which tested Positive for lead-based paint (at or above EPA/CTED threshold of 1.0 mg/cm^2) on May 16th and 17th, 2007.

Sample Results

3.0 LABORATORY INFORMATION

Laboratory Analysis

Samples showing inconclusive results by XRF are collected and analyzed in our laboratory using Flame Atomic Absorption or Graphite Furnace depending upon the detection limit requirement for a given sample. No paint chip sample for Flame AA analysis was collected from the site since none of the XRF results were reported as inconclusive.

Laboratory Accreditation

AIHA-ELLAP: American Industrial Hygiene Association (AIHA) under the Environmental Lead Laboratory Accreditation Program (ELLAP). The ELLAP accreditation is required for a lab performing paint, soil or dust analysis for the presence of lead (Pb) to be in compliance under EPA National Lead Laboratory Accreditation program (NLLAC)

AIHA-IHLAP: American Industrial Hygiene Association (AIHA) under the Industrial Hygiene Laboratory Accreditation Program (IHLAP). The IHLAP program is designed specifically for laboratories involved in analyzing samples to evaluate workplace exposure. (Cert. No. 101861).

DOE: Accredited by Department of Ecology for RCRA metals analysis.

4.0 CONCLUSION AND RECOMMENDATION

- Lead-based paint was discovered during the lead-based paint inspection of "Center Park Apartments" located at 2121 26th Ave. S., Seattle, WA 98144 on May 16th and 17th, 2007.

- Since 1.8% of testing combinations have tested positive for lead-based paint, as per attached flow chart from EPA/HUD guideline, lead-based paint should not be considered to be present development wide in Center Park Apartments.

- Extreme caution should be exercised while doing any repair/repainting on any lead-based paint component. Any kind of paint stabilization/remediation on these components should be conducted by lead certified worker following lead safe work practices.

- A copy of this report must be provided to new tenants and purchasers of this property under Federal Law (24 CFR part 35 and 40 CFR part 745). Landlords and sellers are also required to distribute an educational pamphlet to ensure that parents have information they need to protect their children from lead-based paint hazards.

- Those surfaces that do not contain lead-based paint at or above federal standards (1.0 mg/cm^2 or 0.5 percent by weight) may still pose a hazard if disturbed.

- Occupational Safety and Health Administration (OSHA) has regulations covering worker safety and health that may apply when any painted surface (whether lead-based paint or not) is disturbed.

5.0 LIMITATIONS

This Lead-Based Paint Inspection Report has been prepared for the exclusive use of the Client named herein at the specified Site Address. Any use which a third party makes of this report, or any reliance on or decisions to be made based on it, are the responsibility of such third parties. NVL Laboratories, Inc. (NVL) accepts no responsibility for damages, if any, suffered by any third party as a result of decisions made or actions based on this report. This report is based upon and conducted in accordance with HUD Guidelines and CTED rules in effect at the time of this inspection. NVL has no duty to update this report based on subsequent regulatory changes.

NVL is not responsible for conditions or consequences arising from relevant facts that were concealed, withheld, or not fully disclosed at the time the report was prepared. Areas not accessible at the time of the Inspection are excluded from this report. NVL also notes that the facts and conditions referenced in this report may change overtime, and that the conclusions set forth here are applicable to the facts and conditions as described at the time of this report. We believe that the conditions stated here are factual, but no guarantee is made or implied.

This document is the sole property of NVL Laboratories and the property owner, or his agent, authorizing this Inspection.

Subject: Confirmatory Testing at "Center Park"
Located @ 2121 26th Ave. S., Seattle, WA 98144

INTRODUCTION

As a follow up of lead-based paint inspection conducted on Center Park by NVL Laboratories Inc, Mr. Syed Hasan (CTED Certified Lead Risk Assessor) conducted confirmatory paint chip sampling of "Positive Testing Combinations" of the subject property on October 1, 2007.

Initial lead-based paint inspection was conducted using a Niton XLP 300A spectrum analyzer, serial number 31566NR8116. Painted surfaces were evaluated for presence of Lead-Based Paint.

As per options available in the attached HUD guideline flow chart, paint chip sampling method was chosen to confirm all positive readings. Known area of paint chip samples were collected from the testing combinations which had earlier tested positive for lead-based paint during XRF inspection. These paint chip samples were then analyzed using flame atomic absorption (FAA), method EPA 700B for total lead (Pb) content.

Following are the results of paint chip samples collected on October 1, 2007.

Sample Results

SAMPLE #	LOCATION	RESULTS (mg/cm^2)	LESS THEN REGULATORY LIMIT OF 1 mg/cm^2
730-7-Pb-1	Unit 507, Room 1, Side D	<0.00100	Yes
730-7-Pb-2	Unit 507, Room2, Side B	<0.00100	Yes
730-7-Pb-3	Unit 507, Room 2, Side D	<0.00100	Yes
730-7-Pb-4	Unit 609, Room 2, Side A	<0.00100	Yes

Sample Results (continued)

SAMPLE #	LOCATION*	RESULTS (mg/cm^2)	LESS THEN REGULATORY LIMIT OF 1 mg/cm^2
730-7-Pb-5	Unit 609, Room 2, Side B	<0.00100	Yes
730-7-Pb-6	Unit 609, Room 2, Side D	0.00200	Yes
730-7-Pb-7	Unit 609, Room 3, Side B	<0.00100	Yes
730-7-Pb-8	Unit 609, Room 3, Side C	0.00100	Yes
730-7-Pb-9	Unit 609, Room 3, Side D	0.00200	Yes
730-7-Pb-10	Unit 703, Room 2, Side C	<0.00100	Yes

* Floor plan/testing combination as per initial XRF testing

CONCLUSION

The confirmatory paint chip sample results indicate that **NONE** of the testing combination is above EPA/CTED threshold of 1.0 mg/cm^2. Please refer to attached HUD Flow Chart (Appendix B)

LIMITATIONS

This limited Lead-Based Paint Inspection Report has been prepared for the exclusive use of the Client named herein at the specified Site Address. Any use which a third party makes of this report, or any reliance on or decisions to be made based on it, are the responsibility of such third parties. NVL Laboratories, Inc. (NVL) accepts no responsibility for damages, if any, suffered by any third party as a result of decisions made or actions based on this report. This report is based upon and conducted in accordance with HUD Guidelines and EPA rules in effect at the time of this inspection. NVL has no duty to update this report based on subsequent regulatory changes.

NVL also notes that the facts and conditions referenced in this report may change overtime, and that the conclusions set forth here are applicable to the facts and conditions as described at the time of this report. We believe that the conditions stated here are factual, but no guarantee is made or implied.

This document is the sole property of NVL Laboratories and the property owner, or his agent, authorizing this Inspection. If you have any further questions, please do not hesitate to contact me at 206-547-0100.

Sincerely,

Syed Hasan
Manager Field Services

SCOPE OF ACCREDITATION

NVL Laboratories, Inc.
4708 Aurora Avenue North, Seattle, WA 98103

Laboratory ID: 101861
Issue Date: 08/09/2006

The laboratory is approved for those specific field(s) of testing/methods listed in the table below. Clients are urged to verify the laboratory's current accreditation status for the particular field(s) of testing/Methods, since these can change due to proficiency status, suspension and/or revocation. A complete listing of currently accredited Industrial Hygiene laboratories is available on the AIHA website at:
http://www.aiha.org/Content/LQAP/accred/AccreditedLabs.htm

The EPA recognizes the AIHA ELLAP program as meeting the requirements of the National Lead Laboratory Accreditation Program (NLLAP) established under Title X of the Residential Lead-Based Paint Hazard Reduction Act of 1992 and includes paint, soil and dust wipe analysis. Air analysis is not included as part of the NLLAP.

Environmental Lead Laboratory Accreditation Program (ELLAP)

Initial Accreditation Date: 02/07/1997

Field of Testing (FoT)	Method	Method Description *(for internal methods only)*
Airborne Dust	NIOSH 7082	
Paint	EPA SW-846 7000B	
Settled Dust by Wipe	EPA SW-846 7000B

RE: Metals Analysis; NVL Batch # 2801128.00

Dear Ms. Harris,

Enclosed please find the test results for samples submitted to our laboratory for analysis. Examination of these samples was conducted using analytical instruments in accordance to U.S. EPA, NIOSH, OSHA and other ASTM methods.

For matrix materials submitted as paint, dust wipe, soil or TCLP samples, analysis for the presence of total metals is conducted using published U.S. EPA Methods. Paint and soil results are usually expressed in mg/Kg which is equivalent to parts per million (ppm). Lead (Pb) in paint is usually expressed in mg/Kg (ppm) , Percent (%) or mg/cm^2 by area. Dust wipe sample results are usually expressed in ug/wipe and ug/ft^2. TCLP samples are reported in mg/L (ppm). For air filter samples, analyses are conducted using NIOSH and OSHA Methods. Results are expressed in ug/filter and ug/m^3. Other matrix materials are analyzed accordingly using published methods or specified by client. The reported test results pertain only to items tested. Lead test results are not blank corrected.

King	Electricians - Powerline Construction	Pole Sprayer	$69.75	5A	4D	
King	Electricians - Powerline Construction	Powderperson	$52.20	5A	4D	
King	Electronic Technicians	Journey Level	$31.00		1	
King	Elevator Constructors	Mechanic	$91.24	7D	4A	
King	Elevator Constructors	Mechanic In Charge	$98.51	7D	4A	
King	Fabricated Precast Concrete Products	All Classifications - In-Factory Work Only	$17.72	5B	1R	
King	Fence Erectors	Fence Erector	$15.18		1	
King	Flaggers	Journey Level	$39.48	7A	3I	
King	Glaziers	Journey Level	$61.81	7L	1Y	

King	Heat & Frost Insulators And Asbestos Workers	Journeyman	$67.93	5J	4H	
King	Heating Equipment Mechanics	Journey Level	$78.17	7F	1E	
King	Hod Carriers & Mason Tenders	Journey Level	$48.02	7A	3I	
King	Industrial Power Vacuum Cleaner	Journey Level	$11.50		1	
King	Inland Boatmen	Boat Operator	$61.41	5B	1K	
King	Inland Boatmen	Cook	$56.48	5B	1K	
King	Inland Boatmen	Deckhand	$57.48	5B	1K	
King	Inland Boatmen	Deckhand Engineer	$58.81	5B	1K	
King	Inland Boatmen	Launch Operator	$58.89	5B	1K	
King	Inland Boatmen	Mate	$57.31	5B	1K	
King	Inspection/Cleaning/Sealing Of Sewer & Water Systems By Remote Control	Cleaner Operator, Foamer Operator	$31.49		1	
King	Inspection/Cleaning/Sealing Of Sewer & Water Systems By Remote Control	Grout Truck Operator	$11.50		1	
King	Inspection/Cleaning/Sealing Of Sewer & Water Systems By Remote Control	Head Operator	$24.91		1	
King	Inspection/Cleaning/Sealing Of Sewer & Water Systems By Remote Control	Technician	$19.33		1	
King	Inspection/Cleaning/Sealing Of Sewer & Water Systems By Remote Control	Tv Truck Operator	$20.45		1	
King	Insulation Applicators	Journey Level	$57.18	5D	4C	
King	Ironworkers	Journeyman	$67.88	7N	1O	
King	Laborers	Air, Gas Or Electric Vibrating Screed	$46.57	7A	3I	
King	Laborers	Airtrac Drill Operator	$48.02	7A	3I	
King	Laborers	Ballast Regular Machine	$46.57	7A	3I	
King	Laborers	Batch Weighman	$39.48	7A	3I	
King	Laborers	Brick Pavers	$46.57	7A	3I	
King	Laborers	Brush Cutter	$46.57	7A	3I	
King	Laborers	Brush Hog Feeder	$46.57	7A	3I	
King	Laborers	Burner	$46.57	7A	3I	
King	Laborers	Caisson Worker	$48.02	7A	3I	
King	Laborers	Carpenter Tender	$46.57	7A	3I	
King	Laborers	Caulker	$46.57	7A	3I	
King	Laborers	Cement Dumper-paving	$47.44	7A	3I	
King	Laborers	Cement Finisher Tender	$46.57	7A	3I	
King	Laborers	Change House Or Dry Shack	$46.57	7A	3I	
King	Laborers	Chipping Gun (under 30 Lbs.)	$46.57	7A	3I	
King	Laborers	Chipping Gun(30 Lbs. And Over)	$47.44	7A	3I	
King	Laborers	Choker Setter	$46.57	7A	3I	

King	Laborers	Chuck Tender	$46.57	7A	31	
King	Laborers	Clary Power Spreader	$47.44	7A	31	
King	Laborers	Clean-up Laborer	$46.57	7A	31	
King	Laborers	Concrete Dumper/chute Operator	$47.44	7A	31	
King	Laborers	Concrete Form Stripper	$46.57	7A	31	
King	Laborers	Concrete Placement Crew	$47.44	7A	31	
King	Laborers	Concrete Saw Operator/core Driller	$47.44	7A	31	
King	Laborers	Crusher Feeder	$39.48	7A	31	
King	Laborers	Curing Laborer	$46.57	7A	31	
King	Laborers	Demolition: Wrecking & Moving (incl. Charred Material)	$46.57	7A	31	
King	Laborers	Ditch Digger	$46.57	7A	31	
King	Laborers	Diver	$48.02	7A	31	
King	Laborers	Drill Operator (hydraulic,diamond)	$47.44	7A	31	
King	Laborers	Dry Stack Walls	$46.57	7A	31	
King	Laborers	Dump Person	$46.57	7A	31	
King	Laborers	Epoxy Technician	$46.57	7A	31	
King	Laborers	Erosion Control Worker	$46.57	7A	31	
King	Laborers	Faller & Bucker Chain Saw	$47.44	7A	31	
King	Laborers	Fine Graders	$46.57	7A	31	
King	Laborers	Firewatch	$39.48	7A	31	
King	Laborers	Form Setter	$46.57	7A	31	
King	Laborers	Gabian Basket Builders	$46.57	7A	31	
King	Laborers	General Laborer	$46.57	7A	31	
King	Laborers	Grade Checker & Transit Person	$48.02	7A	31	
King	Laborers	Grinders	$46.57	7A	31	
King	Laborers	Grout Machine Tender	$46.57	7A	31	
King	Laborers	Groutmen (pressure)including Post Tension Beams	$47.44	7A	31	
King	Laborers	Guardrail Erector	$46.57	7A	31	
King	Laborers	Hazardous Waste Worker (level A)	$48.02	7A	31	
King	Laborers	Hazardous Waste Worker (level B)	$47.44	7A	31	
King	Laborers	Hazardous Waste Worker (level C)	$46.57	7A	31	
King	Laborers	High Scaler	$48.02	7A	31	
King	Laborers	Jackhammer	$47.44	7A	31	
King	Laborers	Laserbeam Operator	$47.44	7A	31	
King	Laborers	Maintenance Person	$46.57	7A	31	
King	Laborers	Manhole Builder-mudman	$47.44	7A	31	
King	Laborers	Material Yard Person	$46.57	7A	31	

King	Laborers	Motorman-dinky Locomotive	$47.44	7A	31	
King	Laborers	Nozzleman (concrete Pump, Green Cutter When Using Combination Of High Pressure Air & Water On Concrete & Rock, Sandblast, Gunite, Shotcrete, Water Bla	$47.44	7A	31	
King	Laborers	Pavement Breaker	$47.44	7A	31	
King	Laborers	Pilot Car	$39.48	7A	31	
King	Laborers	Pipe Layer Lead	$48.02	7A	31	
King	Laborers	Pipe Layer/tailor	$47.44	7A	31	
King	Laborers	Pipe Pot Tender	$47.44	7A	31	
King	Laborers	Pipe Reliner	$47.44	7A	31	
King	Laborers	Pipe Wrapper	$47.44	7A	31	
King	Laborers	Pot Tender	$46.57	7A	31	
King	Laborers	Powderman	$48.02	7A	31	
King	Laborers	Powderman's Helper	$46.57	7A	31	
King	Laborers	Power Jacks	$47.44	7A	31	
King	Laborers	Railroad Spike Puller - Power	$47.44	7A	31	
King	Laborers	Raker - Asphalt	$48.02	7A	31	
King	Laborers	Re-timberman	$48.02	7A	31	
King	Laborers	Remote Equipment Operator	$47.44	7A	31	
King	Laborers	Rigger/signal Person	$47.44	7A	31	
King	Laborers	Rip Rap Person	$46.57	7A	31	
King	Laborers	Rivet Buster	$47.44	7A	31	
King	Laborers	Rodder	$47.44	7A	31	
King	Laborers	Scaffold Erector	$46.57	7A	31	
King	Laborers	Scale Person	$46.57	7A	31	
King	Laborers	Sloper (over 20")	$47.44	7A	31	
King	Laborers	Sloper Sprayer	$46.57	7A	31	
King	Laborers	Spreader (concrete)	$47.44	7A	31	
King	Laborers	Stake Hopper	$46.57	7A	31	
King	Laborers	Stock Piler	$46.57	7A	31	
King	Laborers	Tamper & Similar Electric, Air & Gas Operated Tools	$47.44	7A	31	
King	Laborers	Tamper (multiple & Self-propelled)	$47.44	7A	31	
King	Laborers	Timber Person - Sewer (lagger, Shorer & Cribber)	$47.44	7A	31	
King	Laborers	Toolroom Person (at Jobsite)	$46.57	7A	31	
King	Laborers	Topper	$46.57	7A	31	
King	Laborers	Track Laborer	$46.57	7A	31	
King	Laborers	Track Liner (power)	$47.44	7A	31	
King	Laborers	Traffic Control Laborer	$42.22	7A	31	8R
King	Laborers	Traffic Control Supervisor	$42.22	7A	31	8R
King	Laborers	Truck Spotter	$46.57	7A	31	
King	Laborers	Tugger Operator	$47.44	7A	31	

King	Laborers	Tunnel Work-Compressed Air Worker 0-30 psi	$92.60	7A	3I	8Q
King	Laborers	Tunnel Work-Compressed Air Worker 30.01-44.00 psi	$97.63	7A	3I	8Q
King	Laborers	Tunnel Work-Compressed Air Worker 44.01-54.00 psi	$101.31	7A	3I	8Q
King	Laborers	Tunnel Work-Compressed Air Worker 54.01-60.00 psi	$107.01	7A	3I	8Q
King	Laborers	Tunnel Work-Compressed Air Worker 60.01-64.00 psi	$109.13	7A	3I	8Q
King	Laborers	Tunnel Work-Compressed Air Worker 64.01-68.00 psi	$114.23	7A	3I	8Q
King	Laborers	Tunnel Work-Compressed Air Worker 68.01-70.00 psi	$116.13	7A	3I	8Q
King	Laborers	Tunnel Work-Compressed Air Worker 70.01-72.00 psi	$118.13	7A	3I	8Q
King	Laborers	Tunnel Work-Compressed Air Worker 72.01-74.00 psi	$120.13	7A	3I	8Q
King	Laborers	Tunnel Work-Guage and Lock Tender	$48.12	7A	3I	8Q
King	Laborers	Tunnel Work-Miner	$48.12	7A	3I	8Q
King	Laborers	Vibrator	$47.44	7A	3I	
King	Laborers	Vinyl Seamer	$46.57	7A	3I	
King	Laborers	Watchman	$35.88	7A	3I	
King	Laborers	Welder	$47.44	7A	3I	
King	Laborers	Well Point Laborer	$47.44	7A	3I	
King	Laborers	Window Washer/cleaner	$35.88	7A	3I	
King	Laborers - Underground Sewer & Water	General Laborer & Topman	$46.57	7A	3I	
King	Laborers - Underground Sewer & Water	Pipe Layer	$47.44	7A	3I	
King	Landscape Construction	Irrigation Or Lawn Sprinkler Installers	$13.56		1	
King	Landscape Construction	Landscape Equipment Operators Or Truck Drivers	$28.17		1	
King	Landscape Construction	Landscaping or Planting Laborers	$17.87		1	
King	Lathers	Journey Level	$56.78	5D	1H	
King	Marble Setters	Journey Level	$55.82	5A	1M	
King	Metal Fabrication (In Shop)	Fitter	$15.86		1	
King	Metal Fabrication (In Shop)	Laborer	$11.50		1	
King	Metal Fabrication (In Shop)	Machine Operator	$13.04		1	
King	Metal Fabrication (In Shop)	Painter	$11.50		1	
King	Metal Fabrication (In Shop)	Welder	$15.48		1	
King	Millwright	Journey Level	$58.68	5D	4C	
King	Modular Buildings	Cabinet Assembly	$11.56		1	
King	Modular Buildings	Electrician	$11.56		1	
King	Modular Buildings	Equipment Maintenance	$11.56		1	
King	Modular Buildings	Plumber	$11.56		1	

King	Modular Buildings	Production Worker	$11.50		1	
King	Modular Buildings	Tool Maintenance	$11.56		1	
King	Modular Buildings	Utility Person	$11.56		1	
King	Modular Buildings	Welder	$11.56		1	
King	Painters	Journey Level	$41.60	6Z	2B	
King	Pile Driver	Crew Tender	$52.37	5D	4C	
King	Pile Driver	Hyperbaric Worker - Compressed Air Worker 0-30.00 PSI	$71.35	5D	4C	
King	Pile Driver	Hyperbaric Worker - Compressed Air Worker 30.01 - 44.00 PSI	$76.35	5D	4C	
King	Pile Driver	Hyperbaric Worker - Compressed Air Worker 44.01 - 54.00 PSI	$80.35	5D	4C	
King	Pile Driver	Hyperbaric Worker - Compressed Air Worker 54.01 - 60.00 PSI	$85.35	5D	4C	
King	Pile Driver	Hyperbaric Worker - Compressed Air Worker 60.01 - 64.00 PSI	$87.85	5D	4C	
King	Pile Driver	Hyperbaric Worker - Compressed Air Worker 64.01 - 68.00 PSI	$92.85	5D	4C	
King	Pile Driver	Hyperbaric Worker - Compressed Air Worker 68.01 - 70.00 PSI	$94.85	5D	4C	
King	Pile Driver	Hyperbaric Worker - Compressed Air Worker 70.01 - 72.00 PSI	$96.85	5D	4C	
King	Pile Driver	Hyperbaric Worker - Compressed Air Worker 72.01 - 74.00 PSI	$98.85	5D	4C	
King	Pile Driver	Journey Level	$57.43	5D	4C	
King	Plasterers	Journey Level	$54.89	7Q	1R	
King	Playground & Park Equipment Installers	Journey Level	$11.50		1	
King	Plumbers & Pipefitters	Journey Level	$81.69	6Z	1G	
King	Power Equipment Operators	Asphalt Plant Operators	$60.49	7A	3C	8P
King	Power Equipment Operators	Assistant Engineer	$56.90	7A	3C	8P
King	Power Equipment Operators	Barrier Machine (zipper)	$59.96	7A	3C	8P
King	Power Equipment Operators	Batch Plant Operator, Concrete	$59.96	7A	3C	8P
King	Power Equipment Operators	Bobcat	$56.90	7A	3C	8P
King	Power Equipment Operators	Brokk - Remote Demolition Equipment	$56.90	7A	3C	8P
King	Power Equipment Operators	Brooms	$56.90	7A	3C	8P
King	Power Equipment Operators	Bump Cutter	$59.96	7A	3C	8P
King	Power Equipment Operators	Cableways	$60.49	7A	3C	8P
King	Power Equipment Operators	Chipper	$59.96	7A	3C	8P

King	Power Equipment Operators	Compressor	$56.90	7A	3C	8P
King	Power Equipment Operators	Concrete Pump: Truck Mount With Boom Attachment Over 42 M	$60.49	7A	3C	8P
King	Power Equipment Operators	Concrete Finish Machine -laser Screed	$56.90	7A	3C	8P
King	Power Equipment Operators	Concrete Pump - Mounted Or Trailer High Pressure Line Pump, Pump High Pressure.	$59.49	7A	3C	8P
King	Power Equipment Operators	Concrete Pump: Truck Mount With Boom Attachment Up To 42m	$59.96	7A	3C	8P
King	Power Equipment Operators	Conveyors	$59.49	7A	3C	8P
King	Power Equipment Operators	Cranes Friction: 200 tons and over	$62.33	7A	3C	8P
King	Power Equipment Operators	Cranes: 20 Tons Through 44 Tons With Attachments	$59.96	7A	3C	8P
King	Power Equipment Operators	Cranes: 100 Tons Through 199 Tons, Or 150' Of Boom (Including Jib With Attachments)	$61.10	7A	3C	8P
King	Power Equipment Operators	Cranes: 200 tons- 299 tons, or 250' of boom including jib with attachments	$61.72	7A	3C	8P
King	Power Equipment Operators	Cranes: 300 tons and over or 300' of boom including jib with attachments	$62.33	7A	3C	8P
King	Power Equipment Operators	Cranes: 45 Tons Through 99 Tons, Under 150' Of Boom (including Jib With Attachments)	$60.49	7A	3C	8P
King	Power Equipment Operators	Cranes: A-frame - 10 Tons And Under	$56.90	7A	3C	8P
King	Power Equipment Operators	Cranes: Friction cranes through 199 tons	$61.72	7A	3C	8P
King	Power Equipment Operators	Cranes: Through 19 Tons With Attachments A-frame Over 10 Tons	$59.49	7A	3C	8P
King	Power Equipment Operators	Crusher	$59.96	7A	3C	8P
King	Power Equipment Operators	Deck Engineer/deck Winches (power)	$59.96	7A	3C	8P
King	Power Equipment Operators	Derricks, On Building Work	$60.49	7A	3C	8P
King	Power Equipment Operators	Dozers D-9 & Under	$59.49	7A	3C	8P
King	Power Equipment Operators	Drill Oilers: Auger Type, Truck Or Crane Mount	$59.49	7A	3C	8P
King	Power Equipment Operators	Drilling Machine	$61.10	7A	3C	8P
King	Power Equipment Operators	Elevator And Man-lift: Permanent And Shaft Type	$56.90	7A	3C	8P
King	Power Equipment Operators	Finishing Machine, Bidwell And Gamaco & Similar Equipment	$59.96	7A	3C	8P
King	Power Equipment Operators		$59.49	7A	3C	8P

		Forklift: 3000 Lbs And Over With Attachments				
King	Power Equipment Operators	Forklifts: Under 3000 Lbs. With Attachments	$56.90	7A	3C	8P
King	Power Equipment Operators	Grade Engineer: Using Blue Prints, Cut Sheets, Etc	$59.96	7A	3C	8P
King	Power Equipment Operators	Gradechecker/stakeman	$56.90	7A	3C	8P
King	Power Equipment Operators	Guardrail Punch	$59.96	7A	3C	8P
King	Power Equipment Operators	Hard Tail End Dump Articulating Off- Road Equipment 45 Yards. & Over	$60.49	7A	3C	8P
King	Power Equipment Operators	Hard Tail End Dump Articulating Off-road Equipment Under 45 Yards	$59.96	7A	3C	8P
King	Power Equipment Operators	Horizontal/directional Drill Locator	$59.49	7A	3C	8P
King	Power Equipment Operators	Horizontal/directional Drill Operator	$59.96	7A	3C	8P
King	Power Equipment Operators	Hydralifts/boom Trucks Over 10 Tons	$59.49	7A	3C	8P
King	Power Equipment Operators	Hydralifts/boom Trucks, 10 Tons And Under	$56.90	7A	3C	8P
King	Power Equipment Operators	Loader, Overhead 8 Yards. & Over	$61.10	7A	3C	8P
King	Power Equipment Operators	Loader, Overhead, 6 Yards. But Not Including 8 Yards	$60.49	7A	3C	8P
King	Power Equipment Operators	Loaders, Overhead Under 6 Yards	$59.96	7A	3C	8P
King	Power Equipment Operators	Loaders, Plant Feed	$59.96	7A	3C	8P
King	Power Equipment Operators	Loaders: Elevating Type Belt	$59.49	7A	3C	8P
King	Power Equipment Operators	Locomotives, All	$59.96	7A	3C	8P
King	Power Equipment Operators	Material Transfer Device	$59.96	7A	3C	8P
King	Power Equipment Operators	Mechanics, All (leadmen - $0.50 Per Hour Over Mechanic)	$61.10	7A	3C	8P
King	Power Equipment Operators	Motor Patrol Graders	$60.49	7A	3C	8P
King	Power Equipment Operators	Mucking Machine, Mole, Tunnel Drill, Boring, Road Header And/or Shield	$60.49	7A	3C	8P
King	Power Equipment Operators	Oil Distributors, Blower Distribution & Mulch Seeding Operator	$56.90	7A	3C	8P
King	Power Equipment Operators	Outside Hoists (elevators And Manlifts), Air Tuggers,strato	$59.49	7A	3C	8P
King	Power Equipment Operators	Overhead, Bridge Type Crane: 20 Tons Through 44 Tons	$59.96	7A	3C	8P
King	Power Equipment Operators	Overhead, Bridge Type: 100 Tons And Over	$61.10	7A	3C	8P
King	Power Equipment Operators	Overhead, Bridge Type: 45 Tons Through 99 Tons	$60.49	7A	3C	8P
King	Power Equipment Operators	Pavement Breaker	$56.90	7A	3C	8P

King	Power Equipment Operators	Pile Driver (other Than Crane Mount)	$59.96	7A	3C	8P
King	Power Equipment Operators	Plant Oiler - Asphalt, Crusher	$59.49	7A	3C	8P
King	Power Equipment Operators	Posthole Digger, Mechanical	$56.90	7A	3C	8P
King	Power Equipment Operators	Power Plant	$56.90	7A	3C	8P
King	Power Equipment Operators	Pumps - Water	$56.90	7A	3C	8P
King	Power Equipment Operators	Quad 9, Hd 41, D10 And Over	$60.49	7A	3C	8P
King	Power Equipment Operators	Quick Tower - No Cab, Under 100 Feet In Height Based To Boom	$56.90	7A	3C	8P
King	Power Equipment Operators	Remote Control Operator On Rubber Tired Earth Moving Equipment	$60.49	7A	3C	8P
King	Power Equipment Operators	Rigger And Bellman	$56.90	7A	3C	8P
King	Power Equipment Operators	Rigger/Signal Person, Bellman (Certified)	$59.49	7A	3C	8P
King	Power Equipment Operators	Rollagon	$60.49	7A	3C	8P
King	Power Equipment Operators	Roller, Other Than Plant Mix	$56.90	7A	3C	8P
King	Power Equipment Operators	Roller, Plant Mix Or Multi-lift Materials	$59.49	7A	3C	8P
King	Power Equipment Operators	Roto-mill, Roto-grinder	$59.96	7A	3C	8P
King	Power Equipment Operators	Saws - Concrete	$59.49	7A	3C	8P
King	Power Equipment Operators	Scraper, Self Propelled Under 45 Yards	$59.96	7A	3C	8P
King	Power Equipment Operators	Scrapers - Concrete & Carry All	$59.49	7A	3C	8P
King	Power Equipment Operators	Scrapers, Self-propelled: 45 Yards And Over	$60.49	7A	3C	8P
King	Power Equipment Operators	Service Engineers - Equipment	$59.49	7A	3C	8P
King	Power Equipment Operators	Shotcrete/gunite Equipment	$56.90	7A	3C	8P
King	Power Equipment Operators	Shovel , Excavator, Backhoe, Tractors Under 15 Metric Tons.	$59.49	7A	3C	8P
King	Power Equipment Operators	Shovel, Excavator, Backhoe: Over 30 Metric Tons To 50 Metric Tons	$60.49	7A	3C	8P
King	Power Equipment Operators	Shovel, Excavator, Backhoes, Tractors: 15 To 30 Metric Tons	$59.96	7A	3C	8P
King	Power Equipment Operators	Shovel, Excavator, Backhoes: Over 50 Metric Tons To 90 Metric Tons	$61.10	7A	3C	8P
King	Power Equipment Operators	Shovel, Excavator, Backhoes: Over 90 Metric Tons	$61.72	7A	3C	8P
King	Power Equipment Operators	Slipform Pavers	$60.49	7A	3C	8P
King	Power Equipment Operators	Spreader, Topsider & Screedman	$60.49	7A	3C	8P
King	Power Equipment Operators	Subgrader Trimmer	$59.96	7A	3C	8P
King	Power Equipment Operators	Tower Bucket Elevators	$59.49	7A	3C	8P
King	Power Equipment Operators	Tower Crane Up To 175' In Height Base To Boom	$61.10	7A	3C	8P

King	Power Equipment Operators	Tower Crane: over 175' through 250' in height, base to boom	$61.72	7A	3C	8P
King	Power Equipment Operators	Tower Cranes: over 250' in height from base to boom	$62.33	7A	3C	8P
King	Power Equipment Operators	Transporters, All Track Or Truck Type	$60.49	7A	3C	8P
King	Power Equipment Operators	Trenching Machines	$59.49	7A	3C	8P
King	Power Equipment Operators	Truck Crane Oiler/driver - 100 Tons And Over	$59.96	7A	3C	8P
King	Power Equipment Operators	Truck Crane Oiler/driver Under 100 Tons	$59.49	7A	3C	8P
King	Power Equipment Operators	Truck Mount Portable Conveyor	$59.96	7A	3C	8P
King	Power Equipment Operators	Welder	$60.49	7A	3C	8P
King	Power Equipment Operators	Wheel Tractors, Farmall Type	$56.90	7A	3C	8P
King	Power Equipment Operators	Yo Yo Pay Dozer	$59.96	7A	3C	8P
King	Power Equipment Operators-Underground Sewer & Water	Asphalt Plant Operators	$60.49	7A	3C	8P
King	Power Equipment Operators-Underground Sewer & Water	Assistant Engineer	$56.90	7A	3C	8P
King	Power Equipment Operators-Underground Sewer & Water	Barrier Machine (zipper)	$59.96	7A	3C	8P
King	Power Equipment Operators-Underground Sewer & Water	Batch Plant Operator, Concrete	$59.96	7A	3C	8P
King	Power Equipment Operators-Underground Sewer & Water	Bobcat	$56.90	7A	3C	8P
King	Power Equipment Operators-Underground Sewer & Water	Brokk - Remote Demolition Equipment	$56.90	7A	3C	8P
King	Power Equipment Operators-Underground Sewer & Water	Brooms	$56.90	7A	3C	8P
King	Power Equipment Operators-Underground Sewer & Water	Bump Cutter	$59.96	7A	3C	8P
King	Power Equipment Operators-Underground Sewer & Water	Cableways	$60.49	7A	3C	8P
King	Power Equipment Operators-Underground Sewer & Water	Chipper	$59.96	7A	3C	8P
King	Power Equipment Operators-Underground Sewer & Water	Compressor	$56.90	7A	3C	8P
King	Power Equipment Operators-Underground Sewer & Water	Concrete Pump: Truck Mount With Boom Attachment Over 42 M	$60.49	7A	3C	8P
King	Power Equipment Operators-Underground Sewer & Water	Concrete Finish Machine -laser Screed	$56.90	7A	3C	8P
King	Power Equipment Operators-Underground Sewer & Water	Concrete Pump - Mounted Or Trailer High Pressure Line Pump, Pump High Pressure.	$59.49	7A	3C	8P
King	Power Equipment Operators-Underground Sewer & Water	Concrete Pump: Truck Mount With Boom Attachment Up To 42m	$59.96	7A	3C	8P
King		Conveyors	$59.49	7A	3C	8P

	Power Equipment Operators-Underground Sewer & Water					
King	Power Equipment Operators-Underground Sewer & Water	Cranes Friction: 200 tons and over	$62.33	7A	3C	8P
King	Power Equipment Operators-Underground Sewer & Water	Cranes: 20 Tons Through 44 Tons With Attachments	$59.96	7A	3C	8P
King	Power Equipment Operators-Underground Sewer & Water	Cranes: 100 Tons Through 199 Tons, Or 150' Of Boom (Including Jib With Attachments)	$61.10	7A	3C	8P
King	Power Equipment Operators-Underground Sewer & Water	Cranes: 200 tons- 299 tons, or 250' of boom including jib with attachments	$61.72	7A	3C	8P
King	Power Equipment Operators-Underground Sewer & Water	Cranes: 300 tons and over or 300' of boom including jib with attachments	$62.33	7A	3C	8P
King	Power Equipment Operators-Underground Sewer & Water	Cranes: 45 Tons Through 99 Tons, Under 150' Of Boom (including Jib With Attachments)	$60.49	7A	3C	8P
King	Power Equipment Operators-Underground Sewer & Water	Cranes: A-frame - 10 Tons And Under	$56.90	7A	3C	8P
King	Power Equipment Operators-Underground Sewer & Water	Cranes: Friction cranes through 199 tons	$61.72	7A	3C	8P
King	Power Equipment Operators-Underground Sewer & Water	Cranes: Through 19 Tons With Attachments A-frame Over 10 Tons	$59.49	7A	3C	8P
King	Power Equipment Operators-Underground Sewer & Water	Crusher	$59.96	7A	3C	8P
King	Power Equipment Operators-Underground Sewer & Water	Deck Engineer/deck Winches (power)	$59.96	7A	3C	8P
King	Power Equipment Operators-Underground Sewer & Water	Derricks, On Building Work	$60.49	7A	3C	8P
King	Power Equipment Operators-Underground Sewer & Water	Dozers D-9 & Under	$59.49	7A	3C	8P
King	Power Equipment Operators-Underground Sewer & Water	Drill Oilers: Auger Type, Truck Or Crane Mount	$59.49	7A	3C	8P
King	Power Equipment Operators-Underground Sewer & Water	Drilling Machine	$61.10	7A	3C	8P
King	Power Equipment Operators-Underground Sewer & Water	Elevator And Man-lift: Permanent And Shaft Type	$56.90	7A	3C	8P
King	Power Equipment Operators-Underground Sewer & Water	Finishing Machine, Bidwell And Gamaco & Similar Equipment	$59.96	7A	3C	8P
King	Power Equipment Operators-Underground Sewer & Water	Forklift: 3000 Lbs And Over With Attachments	$59.49	7A	3C	8P
King	Power Equipment Operators-Underground Sewer & Water	Forklifts: Under 3000 Lbs. With Attachments	$56.90	7A	3C	8P
King	Power Equipment Operators-Underground Sewer & Water	Grade Engineer: Using Blue Prints, Cut Sheets, Etc	$59.96	7A	3C	8P
King	Power Equipment Operators-Underground Sewer & Water	Gradechecker/stakeman	$56.90	7A	3C	8P

King	Power Equipment Operators-Underground Sewer & Water	Guardrail Punch	$59.96	7A	3C	8P
King	Power Equipment Operators-Underground Sewer & Water	Hard Tail End Dump Articulating Off- Road Equipment 45 Yards. & Over	$60.49	7A	3C	8P
King	Power Equipment Operators-Underground Sewer & Water	Hard Tail End Dump Articulating Off-road Equipment Under 45 Yards	$59.96	7A	3C	8P
King	Power Equipment Operators-Underground Sewer & Water	Horizontal/directional Drill Locator	$59.49	7A	3C	8P
King	Power Equipment Operators-Underground Sewer & Water	Horizontal/directional Drill Operator	$59.96	7A	3C	8P
King	Power Equipment Operators-Underground Sewer & Water	Hydralifts/boom Trucks Over 10 Tons	$59.49	7A	3C	8P
King	Power Equipment Operators-Underground Sewer & Water	Hydralifts/boom Trucks, 10 Tons And Under	$56.90	7A	3C	8P
King	Power Equipment Operators-Underground Sewer & Water	Loader, Overhead 8 Yards. & Over	$61.10	7A	3C	8P
King	Power Equipment Operators-Underground Sewer & Water	Loader, Overhead, 6 Yards. But Not Including 8 Yards	$60.49	7A	3C	8P
King	Power Equipment Operators-Underground Sewer & Water	Loaders, Overhead Under 6 Yards	$59.96	7A	3C	8P
King	Power Equipment Operators-Underground Sewer & Water	Loaders, Plant Feed	$59.96	7A	3C	8P
King	Power Equipment Operators-Underground Sewer & Water	Loaders: Elevating Type Belt	$59.49	7A	3C	8P
King	Power Equipment Operators-Underground Sewer & Water	Locomotives, All	$59.96	7A	3C	8P
King	Power Equipment Operators-Underground Sewer & Water	Material Transfer Device	$59.96	7A	3C	8P
King	Power Equipment Operators-Underground Sewer & Water	Mechanics, All (leadmen - $0.50 Per Hour Over Mechanic)	$61.10	7A	3C	8P
King	Power Equipment Operators-Underground Sewer & Water	Motor Patrol Graders	$60.49	7A	3C	8P
King	Power Equipment Operators-Underground Sewer & Water	Mucking Machine, Mole, Tunnel Drill, Boring, Road Header And/or Shield	$60.49	7A	3C	8P
King	Power Equipment Operators-Underground Sewer & Water	Oil Distributors, Blower Distribution & Mulch Seeding Operator	$56.90	7A	3C	8P
King	Power Equipment Operators-Underground Sewer & Water	Outside Hoists (elevators And Manlifts), Air Tuggers,strato	$59.49	7A	3C	8P
King	Power Equipment Operators-Underground Sewer & Water	Overhead, Bridge Type Crane: 20 Tons Through 44 Tons	$59.96	7A	3C	8P
King	Power Equipment Operators-Underground Sewer & Water	Overhead, Bridge Type: 100 Tons And Over	$61.10	7A	3C	8P
King	Power Equipment Operators-Underground Sewer & Water	Overhead, Bridge Type: 45 Tons Through 99 Tons	$60.49	7A	3C	8P
King	Power Equipment Operators-Underground Sewer & Water	Pavement Breaker	$56.90	7A	3C	8P
King			$59.96	7A	3C	8P

	Power Equipment Operators-Underground Sewer & Water	Pile Driver (other Than Crane Mount)				
King	Power Equipment Operators-Underground Sewer & Water	Plant Oiler - Asphalt, Crusher	$59.49	7A	3C	8P
King	Power Equipment Operators-Underground Sewer & Water	Posthole Digger, Mechanical	$56.90	7A	3C	8P
King	Power Equipment Operators-Underground Sewer & Water	Power Plant	$56.90	7A	3C	8P
King	Power Equipment Operators-Underground Sewer & Water	Pumps - Water	$56.90	7A	3C	8P
King	Power Equipment Operators-Underground Sewer & Water	Quad 9, Hd 41, D10 And Over	$60.49	7A	3C	8P
King	Power Equipment Operators-Underground Sewer & Water	Quick Tower - No Cab, Under 100 Feet In Height Based To Boom	$56.90	7A	3C	8P
King	Power Equipment Operators-Underground Sewer & Water	Remote Control Operator On Rubber Tired Earth Moving Equipment	$60.49	7A	3C	8P
King	Power Equipment Operators-Underground Sewer & Water	Rigger And Bellman	$56.90	7A	3C	8P
King	Power Equipment Operators-Underground Sewer & Water	Rigger/Signal Person, Bellman (Certified)	$59.49	7A	3C	8P
King	Power Equipment Operators-Underground Sewer & Water	Rollagon	$60.49	7A	3C	8P
King	Power Equipment Operators-Underground Sewer & Water	Roller, Other Than Plant Mix	$56.90	7A	3C	8P
King	Power Equipment Operators-Underground Sewer & Water	Roller, Plant Mix Or Multi-lift Materials	$59.49	7A	3C	8P
King	Power Equipment Operators-Underground Sewer & Water	Roto-mill, Roto-grinder	$59.96	7A	3C	8P
King	Power Equipment Operators-Underground Sewer & Water	Saws - Concrete	$59.49	7A	3C	8P
King	Power Equipment Operators-Underground Sewer & Water	Scraper, Self Propelled Under 45 Yards	$59.96	7A	3C	8P
King	Power Equipment Operators-Underground Sewer & Water	Scrapers - Concrete & Carry All	$59.49	7A	3C	8P
King	Power Equipment Operators-Underground Sewer & Water	Scrapers, Self-propelled: 45 Yards And Over	$60.49	7A	3C	8P
King	Power Equipment Operators-Underground Sewer & Water	Service Engineers - Equipment	$59.49	7A	3C	8P
King	Power Equipment Operators-Underground Sewer & Water	Shotcrete/gunite Equipment	$56.90	7A	3C	8P
King	Power Equipment Operators-Underground Sewer & Water	Shovel , Excavator, Backhoe, Tractors Under 15 Metric Tons.	$59.49	7A	3C	8P
King	Power Equipment Operators-Underground Sewer & Water	Shovel, Excavator, Backhoe: Over 30 Metric Tons To 50 Metric Tons	$60.49	7A	3C	8P
King	Power Equipment Operators-Underground Sewer & Water	Shovel, Excavator, Backhoes, Tractors: 15 To 30 Metric Tons	$59.96	7A	3C	8P
King	Power Equipment Operators-Underground Sewer & Water		$61.10	7A	3C	8P

		Shovel, Excavator, Backhoes: Over 50 Metric Tons To 90 Metric Tons				
King	Power Equipment Operators-Underground Sewer & Water	Shovel, Excavator, Backhoes: Over 90 Metric Tons	$61.72	7A	3C	8P
King	Power Equipment Operators-Underground Sewer & Water	Slipform Pavers	$60.49	7A	3C	8P
King	Power Equipment Operators-Underground Sewer & Water	Spreader, Topsider & Screedman	$60.49	7A	3C	8P
King	Power Equipment Operators-Underground Sewer & Water	Subgrader Trimmer	$59.96	7A	3C	8P
King	Power Equipment Operators-Underground Sewer & Water	Tower Bucket Elevators	$59.49	7A	3C	8P
King	Power Equipment Operators-Underground Sewer & Water	Tower Crane Up To 175' In Height Base To Boom	$61.10	7A	3C	8P
King	Power Equipment Operators-Underground Sewer & Water	Tower Crane: over 175' through 250' in height, base to boom	$61.72	7A	3C	8P
King	Power Equipment Operators-Underground Sewer & Water	Tower Cranes: over 250' in height from base to boom	$62.33	7A	3C	8P
King	Power Equipment Operators-Underground Sewer & Water	Transporters, All Track Or Truck Type	$60.49	7A	3C	8P
King	Power Equipment Operators-Underground Sewer & Water	Trenching Machines	$59.49	7A	3C	8P
King	Power Equipment Operators-Underground Sewer & Water	Truck Crane Oiler/driver - 100 Tons And Over	$59.96	7A	3C	8P
King	Power Equipment Operators-Underground Sewer & Water	Truck Crane Oiler/driver Under 100 Tons	$59.49	7A	3C	8P
King	Power Equipment Operators-Underground Sewer & Water	Truck Mount Portable Conveyor	$59.96	7A	3C	8P
King	Power Equipment Operators-Underground Sewer & Water	Welder	$60.49	7A	3C	8P
King	Power Equipment Operators-Underground Sewer & Water	Wheel Tractors, Farmall Type	$56.90	7A	3C	8P
King	Power Equipment Operators-Underground Sewer & Water	Yo Yo Pay Dozer	$59.96	7A	3C	8P
King	Power Line Clearance Tree Trimmers	Journey Level In Charge	$50.02	5A	4A	
King	Power Line Clearance Tree Trimmers	Spray Person	$47.43	5A	4A	
King	Power Line Clearance Tree Trimmers	Tree Equipment Operator	$50.02	5A	4A	
King	Power Line Clearance Tree Trimmers	Tree Trimmer	$44.64	5A	4A

****

Overtime Codes

Overtime calculations are based on the hourly rate actually paid to the worker. On public works projects, the hourly rate must be not less than the prevailing rate of wage minus the hourly rate of the cost of fringe benefits actually provided for the worker.

1. ALL HOURS WORKED IN EXCESS OF EIGHT (8) HOURS PER DAY OR FORTY (40) HOURS PER WEEK SHALL BE PAID AT ONE AND ONE-HALF TIMES THE HOURLY RATE OF WAGE.

B. All hours worked on Saturdays shall be paid at one and one-half times the hourly rate of wage. All hours worked on Sundays and holidays shall be paid at double the hourly rate of wage.

C. The first two (2) hours after eight (8) regular hours Monday through Friday and the first ten (10) hours on Saturday shall be paid at one and one-half times the hourly rate of wage. All other overtime hours and all hours worked on Sundays and holidays shall be paid at double the hourly rate of wage.

D. The first two (2) hours before or after a five-eight (8) hour workweek day or a four-ten (10) hour workweek day and the first eight (8) hours worked the next day after either workweek shall be paid at one and one-half times the hourly rate of wage. All additional hours worked and all worked on Sundays and holidays shall be paid at double the hourly rate of wage.

E. The first two (2) hours after eight (8) regular hours Monday through Friday and the first eight (8) hours on Saturday shall be paid at one and one-half times the hourly rate of wage. All other hours worked Monday through Saturday, and all hours worked on Sundays and holidays shall be paid at double the hourly rate of wage.

F. The first two (2) hours after eight (8) regular hours Monday through Friday and the first ten (10) hours on Saturday shall be paid at one and one-half times the hourly rate of wage. All other overtime hours worked, except Labor Day, shall be paid at double the hourly rate of wage. All hours worked on Labor Day shall be paid at three times the hourly rate of wage.

G. The first ten (10) hours worked on Saturdays and the first ten (10) hours worked on a fifth calendar weekday in a four-ten hour schedule, shall be paid at one and one-half times the hourly rate of wage. All hours worked in excess of ten (10) hours per day Monday through Saturday and all hours worked on Sundays and holidays shall be paid at double the hourly rate of wage.

H. All hours worked on Saturdays (except makeup days if work is lost due to inclement weather conditions or equipment breakdown) shall be paid at one and one-half times the hourly rate of wage. All hours worked Monday through Saturday over twelve (12) hours and all hours worked on Sundays and holidays shall be paid at double the hourly rate of wage.

I. All hours worked on Sundays and holidays shall also be paid at double the hourly rate of wage.

J. The first two (2) hours after eight (8) regular hours Monday through Friday and the first ten (10) hours on Saturday shall be paid at one and one-half times the hourly rate of wage. All hours worked over ten (10) hours Monday through Saturday, Sundays and holidays shall be paid at double the hourly rate of wage.

K. All hours worked on Saturdays and Sundays shall be paid at one and one-half times the hourly rate of wage. All hours worked on holidays shall be paid at double the hourly rate of wage.

M. All hours worked on Saturdays (except makeup days if work is lost due to inclement weather conditions) shall be paid at one and one-half times the hourly rate of wage. All hours worked on Sundays and holidays shall be paid at double the hourly rate of wage.

N. All hours worked on Saturdays (except makeup days) shall be paid at one and one-half times the hourly rate of wage. All hours worked on Sundays and holidays shall be paid at double the hourly rate of wage.

Overtime Codes Continued

1. O. The first ten (10) hours worked on Saturday shall be paid at one and one-half times the hourly rate of wage. All hours worked on Sundays, holidays and after twelve (12) hours, Monday through Friday and after ten (10) hours on Saturday shall be paid at double the hourly rate of wage.

P. All hours worked on Saturdays (except makeup days if circumstances warrant) and Sundays shall be paid at one and one-half times the hourly rate of wage. All hours worked on holidays shall be paid at double the hourly rate of wage.

Q. The first two (2) hours after eight (8) regular hours Monday through Friday and up to ten (10) hours worked on Saturdays shall be paid at one and one-half times the hourly rate of wage. All hours worked in excess of ten (10) hours per day Monday through Saturday and all hours worked on Sundays and holidays (except Christmas day) shall be paid at double the hourly rate of wage. All hours worked on Christmas day shall be paid at two and one-half times the hourly rate of wage.

R. All hours worked on Sundays and holidays shall be paid at two times the hourly rate of wage.

S. The first two (2) hours after eight (8) regular hours Monday through Friday and the first eight (8) hours on Saturday shall be paid at one and one-half times the hourly rate of wage. All hours worked on holidays and all other overtime hours worked, except Labor Day, shall be paid at double the hourly rate of wage. All hours worked on Labor Day shall be paid at three times the hourly rate of wage.

U. All hours worked on Saturdays shall be paid at one and one-half times the hourly rate of wage. All hours worked on Sundays and holidays (except Labor Day) shall be paid at two times the hourly rate of wage. All hours worked on Labor Day shall be paid at three times the hourly rate of wage.

V. All hours worked on Sundays and holidays (except Thanksgiving Day and Christmas day) shall be paid at one and one-half times the hourly rate of wage. All hours worked on Thanksgiving Day and Christmas day shall be paid at double the hourly rate of wage.

W. All hours worked on Saturdays and Sundays (except make-up days due to conditions beyond the control of the employer)) shall be paid at one and one-half times the hourly rate of wage. All hours worked on holidays shall be paid at double the hourly rate of wage.

X. The first four (4) hours after eight (8) regular hours Monday through Friday and the first twelve (12) hours on Saturday shall be paid at one and one-half times the hourly rate of wage. All hours worked over twelve (12) hours Monday through Saturday, Sundays and holidays shall be paid at double the hourly rate of wage. When holiday falls on Saturday or Sunday, the day before Saturday, Friday, and the day after Sunday, Monday, shall be considered the holiday and all work performed shall be paid at double the hourly rate of wage.

Y. All hours worked outside the hours of 5:00 am and 5:00 pm (or such other hours as may be agreed upon by any employer and the employee) and all hours worked in excess of eight (8) hours per day (10 hours per day for a 4 x 10 workweek) and on Saturdays and holidays (except labor day) shall be paid at one and one-half times the hourly rate of wage. (except for employees who are absent from work without prior approval on a scheduled workday during the workweek shall be paid at the straight-time rate until they have worked 8 hours in a day (10 in a 4 x 10 workweek) or 40 hours during that workweek.) All hours worked Monday through Saturday over twelve (12) hours and all hours worked on Sundays and Labor Day shall be paid at double the hourly rate of wage.

Z. All hours worked on Saturdays and Sundays shall be paid at one and one-half times the hourly rate of wage. All hours worked on holidays shall be paid the straight time rate of pay in addition to holiday pay.

Overtime Codes Continued

2. ALL HOURS WORKED IN EXCESS OF EIGHT (8) HOURS PER DAY OR FORTY (40) HOURS PER WEEK SHALL BE PAID AT ONE AND ONE-HALF TIMES THE HOURLY RATE OF WAGE.

   B. All hours worked on holidays shall be paid at one and one-half times the hourly rate of wage.

   C. All hours worked on Sundays shall be paid at one and one-half times the hourly rate of wage. All hours worked on holidays shall be paid at two times the hourly rate of wage.

   F. The first eight (8) hours worked on holidays shall be paid at the straight hourly rate of wage in addition to the holiday pay. All hours worked in excess of eight (8) hours on holidays shall be paid at double the hourly rate of wage.

   G. All hours worked on Sunday shall be paid at two times the hourly rate of wage. All hours worked on paid holidays shall be paid at two and one-half times the hourly rate of wage including holiday pay.

   H. All hours worked on Sunday shall be paid at two times the hourly rate of wage. All hours worked on holidays shall be paid at one and one-half times the hourly rate of wage.

   O. All hours worked on Sundays and holidays shall be paid at one and one-half times the hourly rate of wage.

   R. All hours worked on Sundays and holidays and all hours worked over sixty (60) in one week shall be paid at double the hourly rate of wage.

   U. All hours worked on Saturdays shall be paid at one and one-half times the hourly rate of wage. All hours worked over 12 hours in a day or on Sundays and holidays shall be paid at double the hourly rate of wage.

   W. The first two (2) hours after eight (8) regular hours Monday through Friday and the first eight (8) hours on Saturday shall be paid at one and one-half times the hourly rate of wage. All other hours worked Monday through Saturday, and all hours worked on Sundays and holidays shall be paid at double the hourly rate of wage. On a four-day, ten-hour weekly schedule, either Monday thru Thursday or Tuesday thru Friday schedule, all hours worked after ten shall be paid at double the hourly rate of wage. The first eight (8) hours worked on the fifth day shall be paid at one and one-half times the hourly rate of wage. All other hours worked on the fifth, sixth, and seventh days and on holidays shall be paid at double the hourly rate of wage.

3. ALL HOURS WORKED IN EXCESS OF EIGHT (8) HOURS PER DAY OR FORTY (40) HOURS PER WEEK SHALL BE PAID AT ONE AND ONE-HALF TIMES THE HOURLY RATE OF WAGE.

   A. Work performed in excess of eight (8) hours of straight time per day, or ten (10) hours of straight time per day when four ten (10) hour shifts are established, or forty (40) hours of straight time per week, Monday through Friday, or outside the normal shift, and all work on Saturdays shall be paid at time and one-half the straight time rate. Hours worked over twelve hours (12) in a single shift and all work performed after 6:00 pm Saturday to 6:00 am Monday and holidays shall be paid at double the straight time rate of pay. Any shift starting between the hours of 6:00 pm and midnight shall receive an additional one dollar ($1.00) per hour for all hours worked that shift. The employer shall have the sole discretion to assign overtime work to employees. Primary consideration for overtime work shall be given to employees regularly assigned to the work to be performed on overtime situations. After an employee has worked eight (8) hours at an applicable overtime rate, all additional hours shall be at the applicable overtime rate until such time as the employee has had a break of eight (8) hours or more.

   C. Work performed in excess of eight (8) hours of straight time per day, or ten (10) hours of straight time per day when four ten (10) hour shifts are established, or forty (40) hours of straight time per week, Monday through Friday, or outside the normal shift, and all work on Saturdays shall be paid at one and one-half times the hourly rate of wage. All work performed after 6:00 pm Saturday to 5:00 am Monday and Holidays shall be paid at double the hourly rate of wage. After an employee has worked eight (8) hours at an applicable overtime rate, all additional hours shall be at the applicable overtime rate until such time as the employee has had a break of eight (8) hours or more.

Overtime Codes Continued

3. E. All hours worked Sundays and holidays shall be paid at double the hourly rate of wage. Each week, once 40 hours of straight time work is achieved, then any hours worked over 10 hours per day Monday through Saturday shall be paid at double the hourly wage rate.

F. All hours worked on Saturday shall be paid at one and one-half times the hourly rate of wage. All hours worked on Sunday shall be paid at two times the hourly rate of wage. All hours worked on paid holidays shall be paid at two and one-half times the hourly rate of wage including holiday pay.

H. All work performed on Sundays between March 16th and October 14th and all Holidays shall be compensated for at two (2) times the regular rate of pay. Work performed on Sundays between October 15th and March 15th shall be compensated at one and one half (1-1/2) times the regular rate of pay.

I. All hours worked on Saturdays shall be paid at one and one-half times the hourly rate of wage. In the event the job is down due to weather conditions during a five day work week (Monday through Friday,) or a four day-ten hour work week (Tuesday through Friday,) then Saturday may be worked as a voluntary make-up day at the straight time rate. However, Saturday shall not be utilized as a make-up day when a holiday falls on Friday. All hours worked Monday through Saturday over twelve (12) hours and all hours worked on Sundays and holidays shall be paid at double the hourly rate of wage.

J. All hours worked between the hours of 10:00 pm and 5:00 am, Monday through Friday, and all hours worked on Saturdays shall be paid at a one and one-half times the hourly rate of wage. All hours worked on Sundays and holidays shall be paid at double the hourly rate of wage.

4. ALL HOURS WORKED IN EXCESS OF EIGHT (8) HOURS PER DAY OR FORTY (40) HOURS PER WEEK SHALL BE PAID AT ONE AND ONE-HALF TIMES THE HOURLY RATE OF WAGE.

A. All hours worked in excess of eight (8) hours per day or forty (40) hours per week shall be paid at double the hourly rate of wage. All hours worked on Saturdays, Sundays and holidays shall be paid at double the hourly rate of wage.

B. All hours worked over twelve (12) hours per day and all hours worked on holidays shall be paid at double the hourly rate of wage.

C. On Monday through Friday, the first four (4) hours of overtime after eight (8) hours of straight time work shall be paid at one and one half (1-1/2) times the straight time rate of pay, unless a four (4) day ten (10) hour workweek has been established. On a four (4) day ten (10) hour workweek scheduled Monday through Thursday, or Tuesday through Friday, the first two (2) hours of overtime after ten (10) hours of straight time work shall be paid at one and one half (1-1/2) times the straight time rate of pay. On Saturday, the first twelve (12) hours of work shall be paid at one and one half (1-1/2) times the straight time rate of pay, except that if the job is down on Monday through Friday due to weather conditions or other conditions outside the control of the employer, the first ten (10) hours on Saturday may be worked at the straight time rate of pay. All hours worked over twelve (12) hours in a day and all hours worked on Sunday and Holidays shall be paid at two (2) times the straight time rate of pay.

Overtime Codes Continued

4. D. All hours worked in excess of eight (8) hours per day or forty (40) hours per week shall be paid at double the hourly rate of wage. All hours worked on Saturday, Sundays and holidays shall be paid at double the hourly rate of pay. Rates include all members of the assigned crew.

EXCEPTION:
On all multipole structures and steel transmission lines, switching stations, regulating, capacitor stations, generating plants, industrial plants, associated installations and substations, except those substations whose primary function is to feed a distribution system, will be paid overtime under the following rates:

The first two (2) hours after eight (8) regular hours Monday through Friday of overtime on a regular workday, shall be paid at one and one-half times the hourly rate of wage. All hours in excess of ten (10) hours will be at two (2) times the hourly rate of wage. The first eight (8) hours worked on Saturday will be paid at one and one-half (1-1/2) times the hourly rate of wage. All hours worked in excess of eight (8) hours on Saturday, and all hours worked on Sundays and holidays will be at the double the hourly rate of wage.

All overtime eligible hours performed on the above described work that is energized, shall be paid at the double the hourly rate of wage.

E. The first two (2) hours after eight (8) regular hours Monday through Friday and the first eight (8) hours on Saturday shall be paid at one and one-half times the hourly rate of wage. All other hours worked Monday through Saturday, and all hours worked on Sundays and holidays shall be paid at double the hourly rate of wage.

On a four-day, ten-hour weekly schedule, either Monday thru Thursday or Tuesday thru Friday schedule, all hours worked after ten shall be paid at double the hourly rate of wage. The Monday or Friday not utilized in the normal four-day, ten hour work week, and Saturday shall be paid at one and one half (1½) times the regular shift rate for the first eight (8) hours. All other hours worked Monday through Saturday, and all hours worked on Sundays and holidays shall be paid at double the hourly rate of wage.

F. All hours worked between the hours of 6:00 pm and 6:00 am, Monday through Saturday, shall be paid at a premium rate of 20% over the hourly rate of wage. All hours worked on Sundays shall be paid at one and one-half times the hourly rate of wage. All hours worked on holidays shall be paid at double the hourly rate of wage.

G. All hours worked on Saturdays shall be paid at one and one-half times the hourly rate of wage. All hours worked Monday through Saturday over twelve (12) hours and all hours worked on Sundays and holidays shall be paid at double the hourly rate of wage.

H. The first two (2) hours after eight (8) regular hours Monday through Friday and the first eight (8) hours on Saturday shall be paid at one and one-half times the hourly rate of wage. All other overtime hours worked, except Labor Day, and all hours on Sunday shall be paid at double the hourly rate of wage. All hours worked on Labor Day shall be paid at three times the hourly rate of wage.
