

INVITATION TO BIDS

Flooring Installation Services (Federal) Solicitation No. 6067

ADDENDUM NO. 6
Issue Date: December 2, 2025

This Addendum containing the following revisions, additions, deletions and/or clarifications, is hereby made a part of this solicitation and Contract Documents for the above-named project. Bidders/Proposers shall take this Addendum into consideration when preparing and submitting their response to this solicitation.

This Addendum lists questions received and SHA's responses (see Item 1 below) and replaces specified carpet pad (see Item 2 below).

Item 1. The following is a list of questions received and SHA's responses to those questions.

Question 1. Are you allowed to address any more concerns that arose from addenda 3 spec change? In putting our pricing together the last day or so in anticipation of the bid opening that would have been this morning, it became apparent that SHA has specified a pad for under the carpet that vastly more expensive than what you guys are currently using and frankly seems to be over specified for the purpose. I know SHA is sensitive to costs, and based on my initial pricing from suppliers, this pad is going to cost quite a bit more than current padding being used and unusual to see specified in residential housing. Not sure where you guys got this spec from, but it was not in the original spec yet added in addenda #3. Given the few extra days we have, I'd like to ask if this spec can be reviewed for accuracy and necessity.

When I saw the cost of this rubber pad, I knew SHA's objective in getting the right products and right value did not quite jibe with this product selection. Carpet Pad is typically not a high cost item; this is an exception.

Response: *Please see Item 2 and product sheets attached to this addendum for updated carpet pad specifications.*

Question 2. We want to confirm the wage rates shown in the solicitation are the correct rates that will govern any and all work that might be contemplated under this contract? This wage decision for "Floor Coverers" looks low to us and is lower than the decision we are currently using for work at SHA on these same units. If this is the correct scale for the contract, then ok. I just want to be sure it is.

Response: *The wage rates shown in the solicitation are the correct rates and will be applicable to all work orders that are issued under the contract through December 31, 2026.*

Item 2. REMOVE previously specified Carpet Pad and **REPLACE** with Carpet Pad listed below. Product sheets are attached to this addendum.
